TRIGO
Global Quality Solutions

START HERE

1 Open the website

Scan the QR or open the link. Use your normal browser, with internet connected.

2 Enter your company account

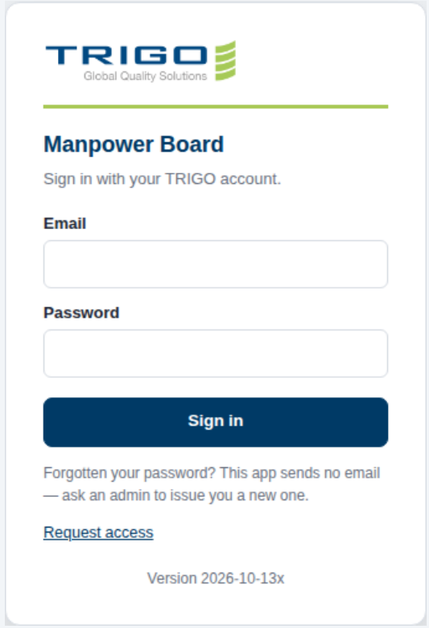

Use your approved @trigo-group.com email and password.

3 Select Sign in

Check the board and date. Login starts on the next working day.

ALL USERS · SUBJECT TO ROLE

Open the app and sign in

Scan with your phone camera or tap the link

https://trigoth-manpowerboard.netlify.app

The QR opens the website. Account approval is still required.

Request access or reset a password

START HERE

1 Select Request access

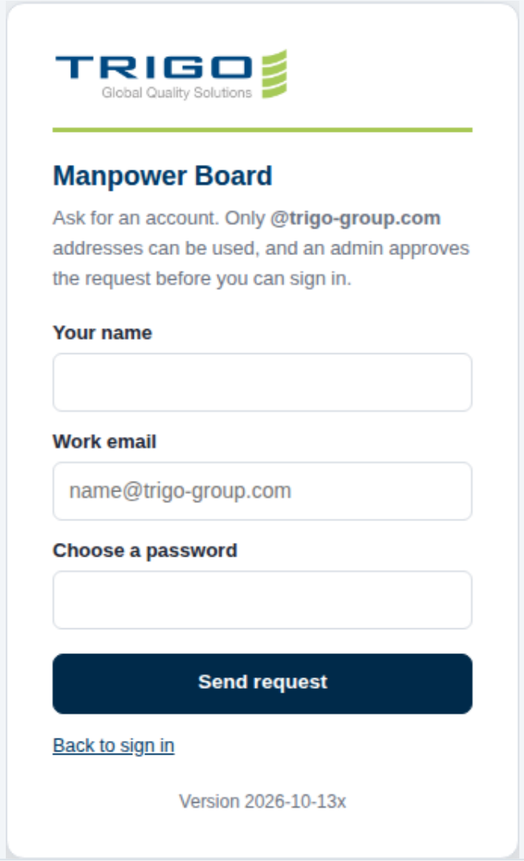

Enter your full name, company email and a password of at least 8 characters; select Send request.

2 Wait for an admin

Sign in after approval. An admin may instead provide a temporary password.

3 Choose your own password

The app asks you to replace an admin-issued password. If forgotten, ask an admin to reset it.

The app sends no password-reset email.

THE UPDATED APP

1 Use the navy module bar

Board, Overview, Org Chart, Manpower, Host and Capacity are now modules in the header.

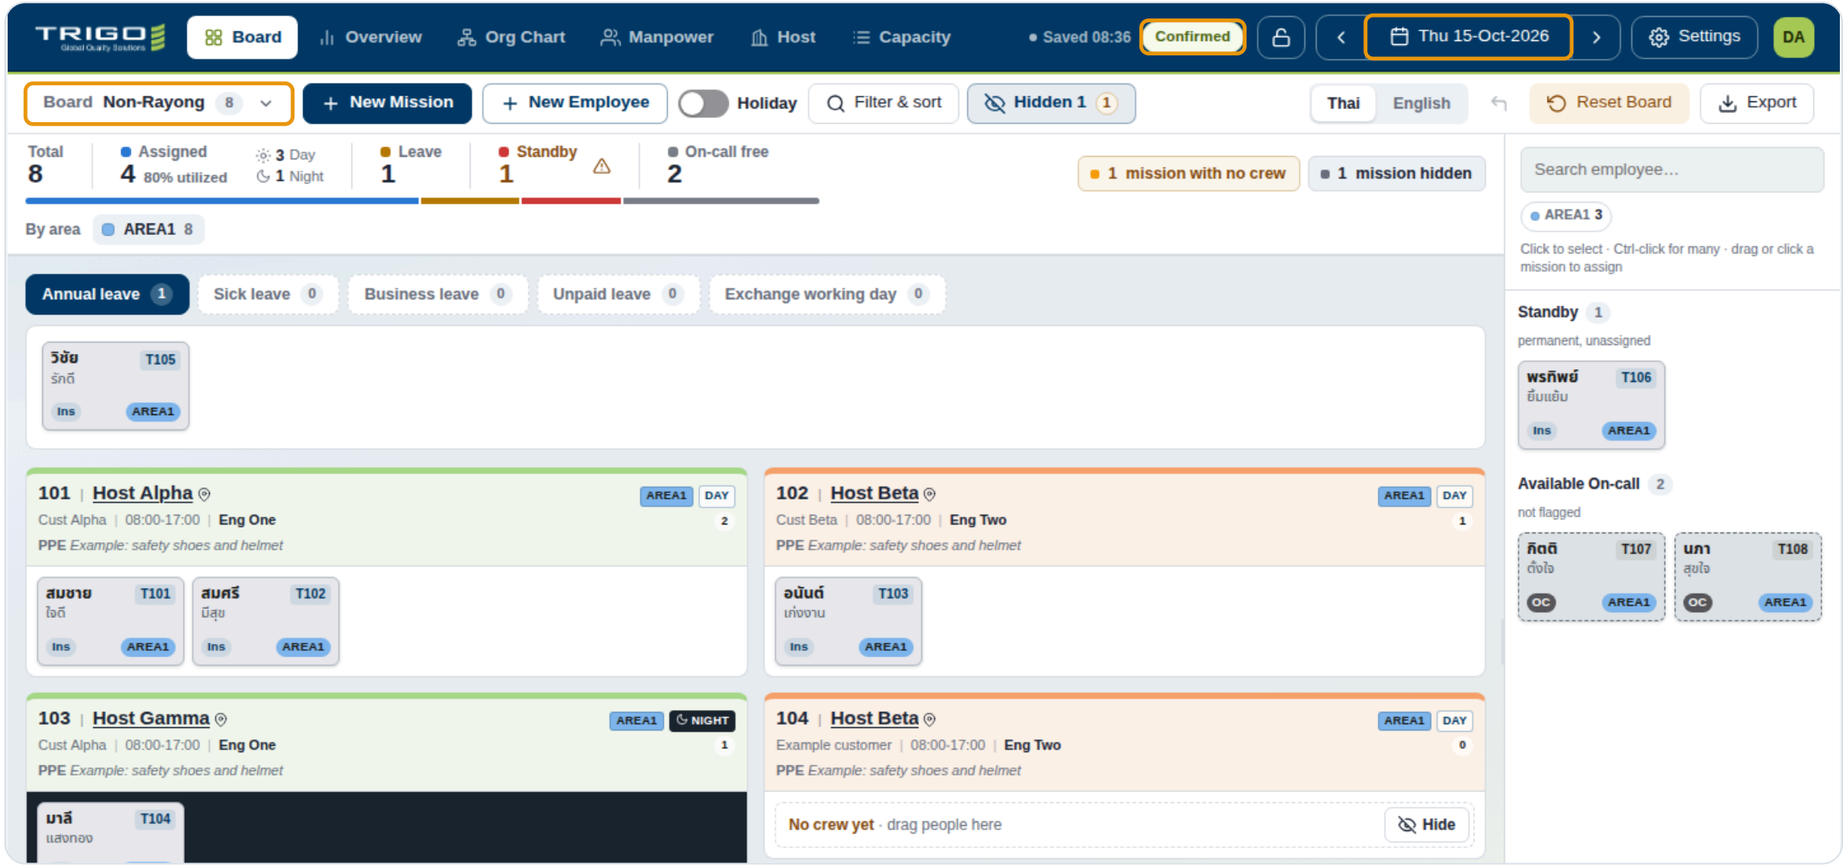

2 Choose a board from the dropdown

The Board selector is in the white toolbar on desktop. On a phone, tap the board name.

3 Use the right-hand controls

The status pill, Lock and date sit together. Settings opens a page; Sign out is in your avatar menu.

Find controls in the updated design

This manual uses current-release screenshots with example data. The app now uses a light interface.

ALL USERS · SUBJECT TO ROLE

EN

TRIGO
Global Quality Solutions

DAILY PLANNING

1 Open Board and choose your team

Use the Board dropdown; names and headcounts help identify the right board.

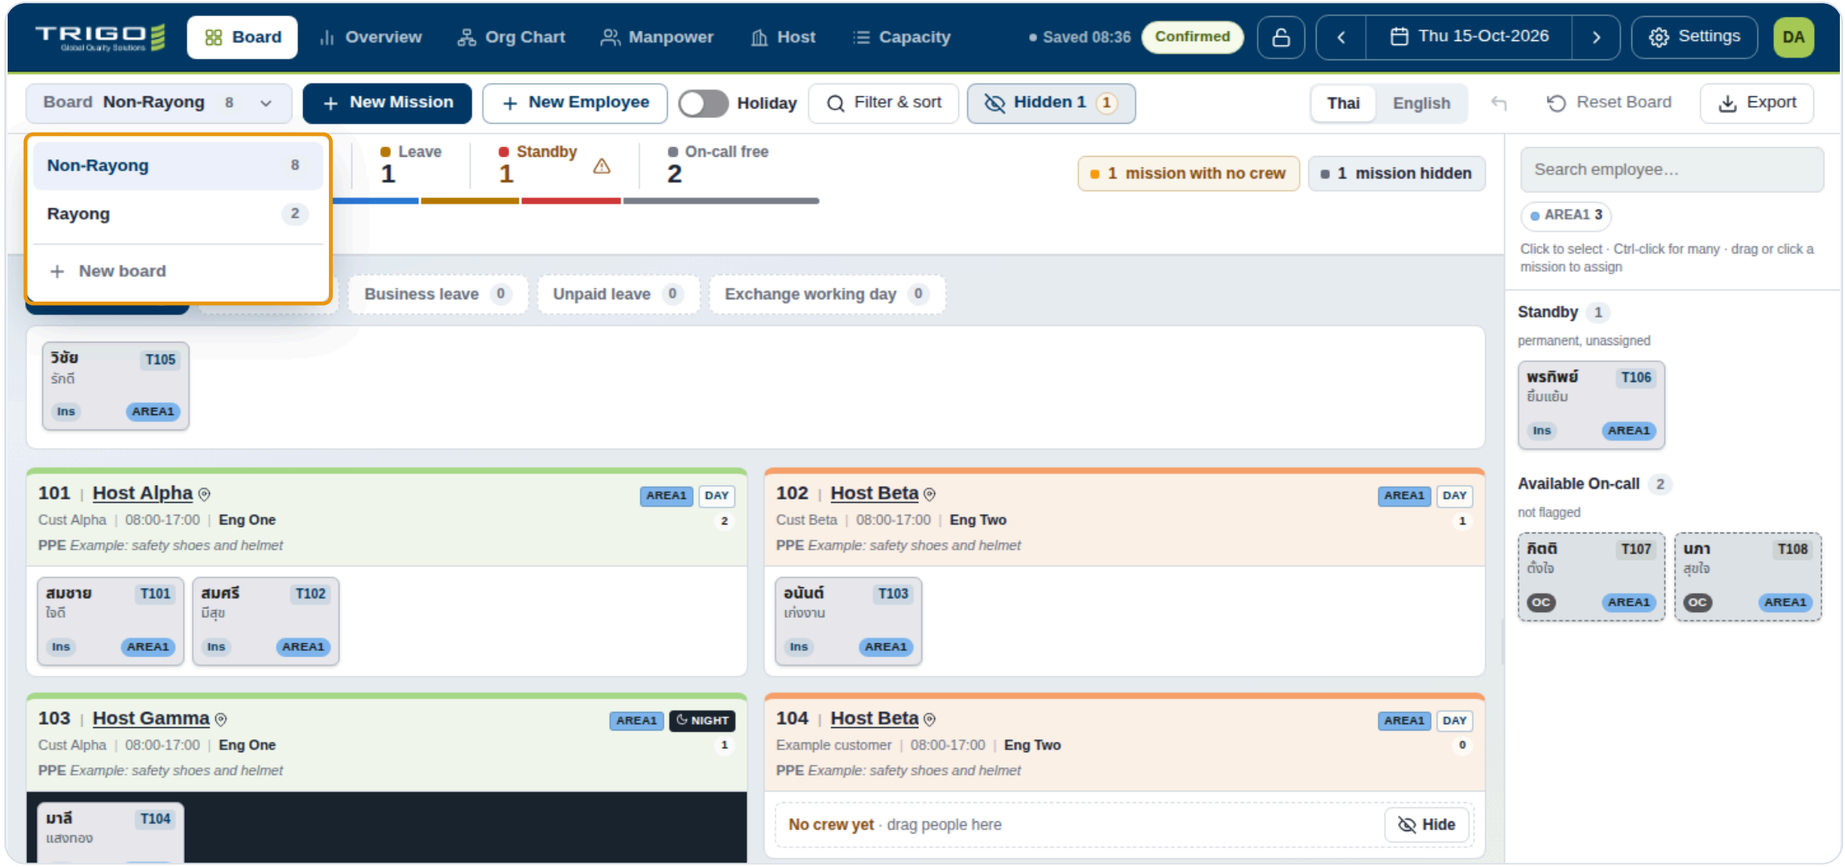

2 Check the planning date

Click the date for the calendar or use ‹ and › for adjacent days.

3 Read the status pill

Confirmed is the working plan. Forecast is tentative. Locked or Read-only means editing is restricted.

Choose the board, date and status

Each board and date has its own plan. A past day is read-only by default; any Edit anyway action needs a deliberate confirmation.

ALL USERS · SUBJECT TO ROLE

EN

Read the headcount and leave tabs

DAILY PLANNING

1 Read Total and Assigned

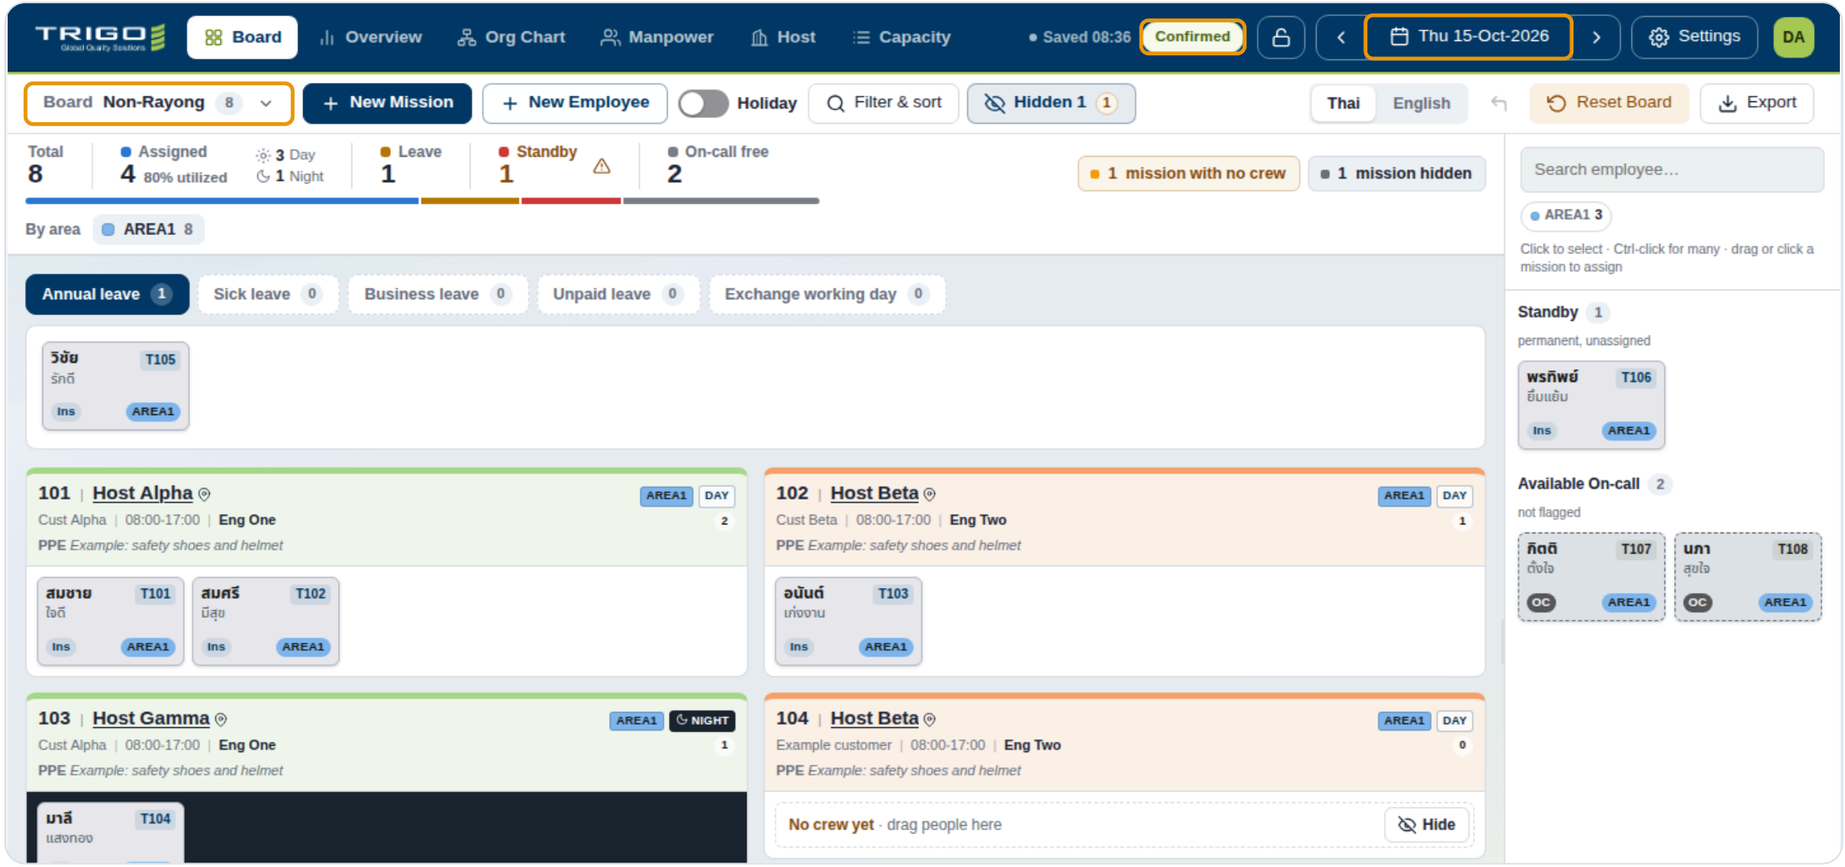

Assigned includes Day and Night. Day + Night equals Assigned.

2 Check the other status counts

Leave, Standby, Holiday when shown, and On-call free complete the total. Standby is flagged when permanent staff are idle.

3 Use By area and the leave tabs

Area counts add up to Total. Select Annual, Sick, Business, Unpaid or Exchange to see that lane.

Leave tabs show counts and accept placement. The app draws all non-empty leave lanes in board exports.

EN

TRIGO
Global Quality Solutions

DAILY PLANNING

1 Check the board and date

An empty day does not copy yesterday automatically.

2 Select Carry over

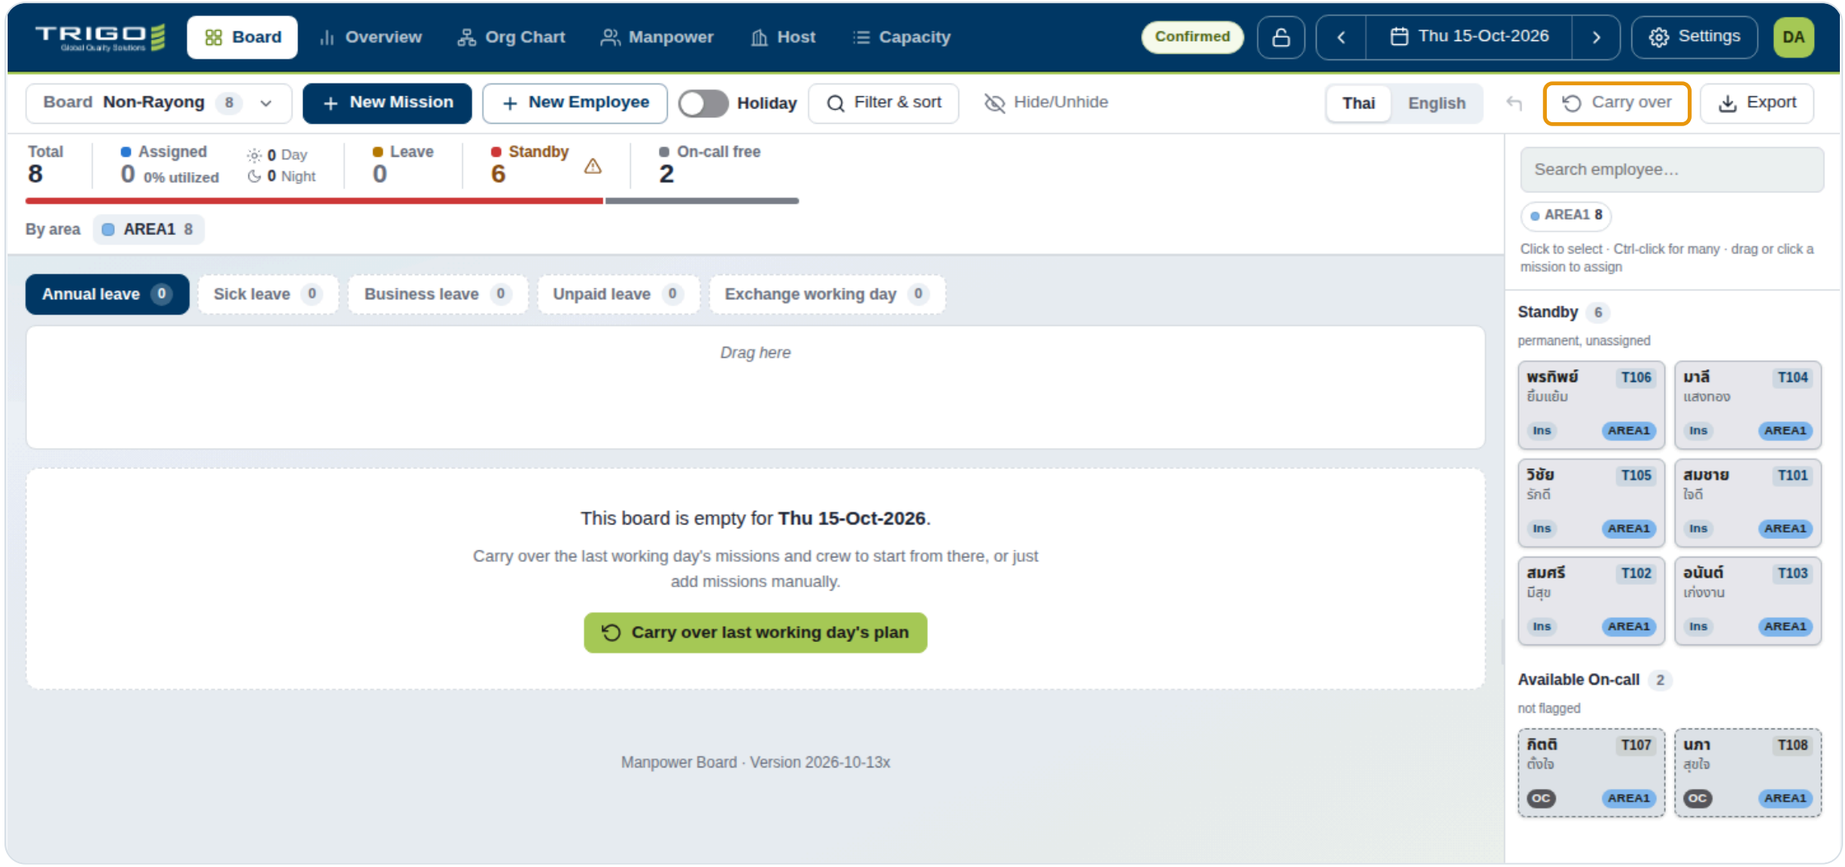

Use the toolbar or the empty-day prompt to copy the last working day's missions and crew.

3 Review what was copied

Check hosts, shifts, times, people and leave before changing the plan.

EDIT ACCESS REQUIRED

Start an empty day with Carry over

Reset Board replaces an existing day's plan. Review changes is the gentler option when a carry-over becomes stale.

TRIGO
Global Quality Solutions

DAILY PLANNING

Create a mission in the side panel

1 Select New Mission

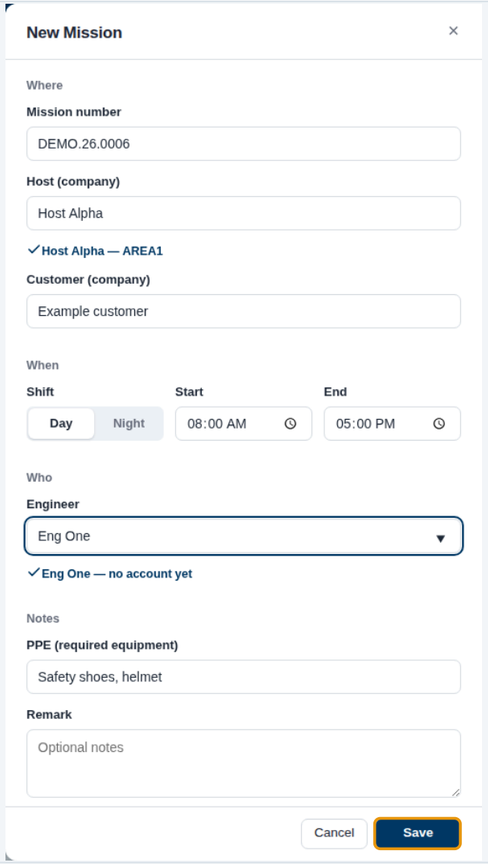

Desktop opens a panel on the right. Phones open the form full screen.

2 Enter the work details

Fill mission number, Host and Customer. Use Day / Night segments, Start / End, and PPE.

3 Choose Engineer, then Save

Select a matching name, add a Remark if needed, and use the pinned Save button.

Choose a Host from the list. Follow the create-host prompt if it is missing.

EDIT ACCESS REQUIRED

TRIGO
Global Quality Solutions

DAILY PLANNING

Edit, pause or delete a mission

1 Open the mission header

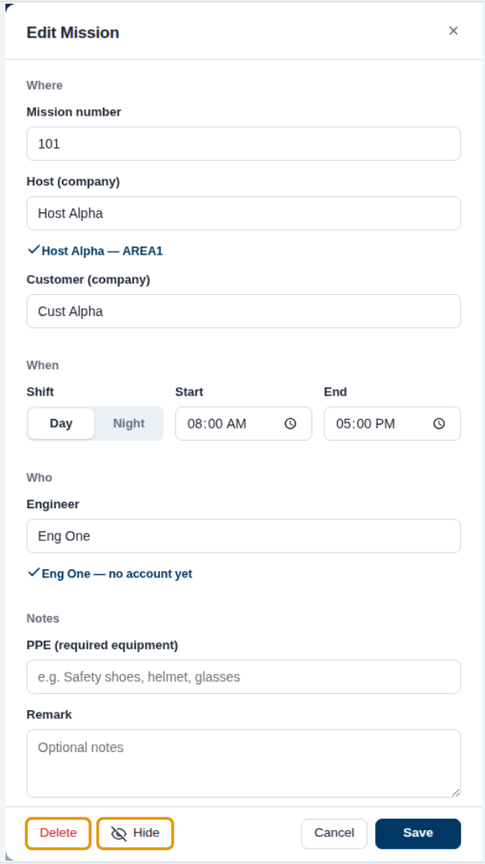

Click its header to open the record panel.

2 Edit and Save

Check host, shift, times, engineer and remarks. Cancel or Escape closes the panel.

3 Use Hide for a paused mission

Its definition stays, while crew returns to the available pool. Delete removes the mission record.

Read any confirmation before deleting or changing a finished plan.

EDIT ACCESS REQUIRED

EN

TRIGO
Global Quality Solutions

DAILY PLANNING

1 Open Hide/Unhide or Hidden n

The button also flags missions with no crew.

2 Find the relevant missions

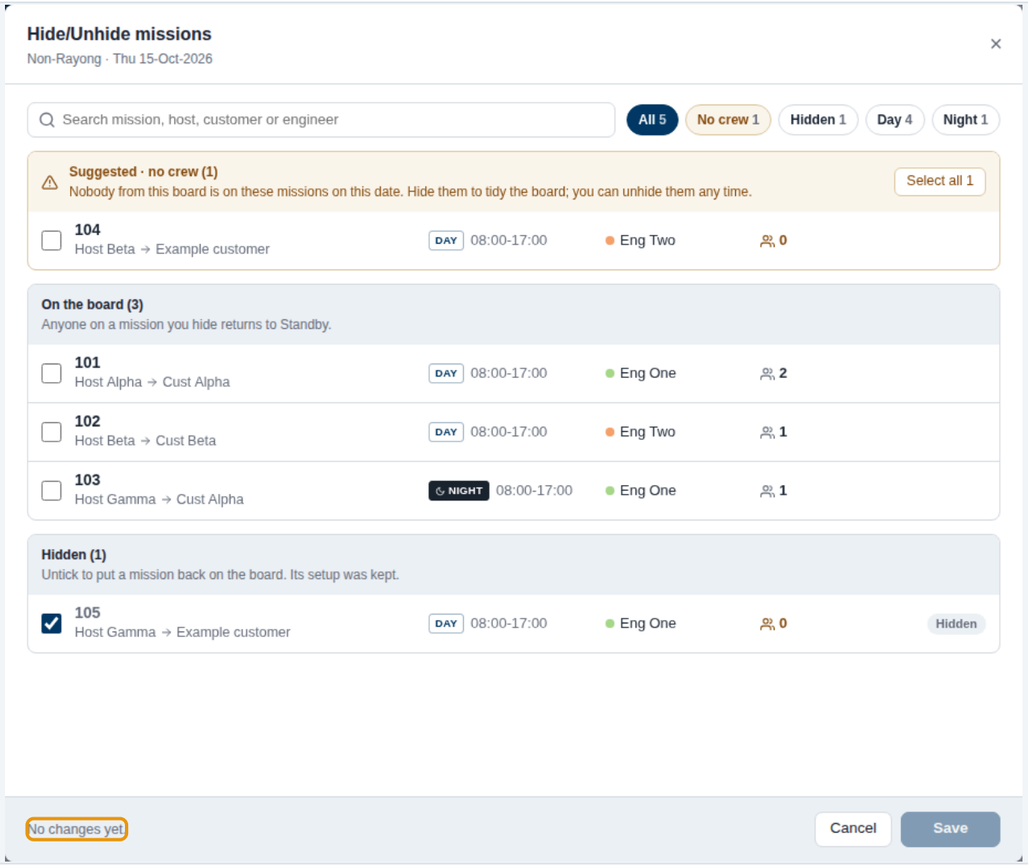

Suggested · no crew is first, followed by On the board and Hidden. Search or use All / No crew / Hidden / Day / Night.

3 Check the preview and Save

Selected rows say Will hide or Will unhide. The footer shows changes and how many people return to Standby.

EDIT ACCESS REQUIRED

Review Hide / Unhide before saving

An empty mission card can be hidden immediately with its Hide button; the toast offers Undo.

EN

TRIGO
Global Quality Solutions

PEOPLE ON THE BOARD

1 Find the employee

Look in Standby or Available On-call. Check the name and TRIGO ID.

2 Select, then place

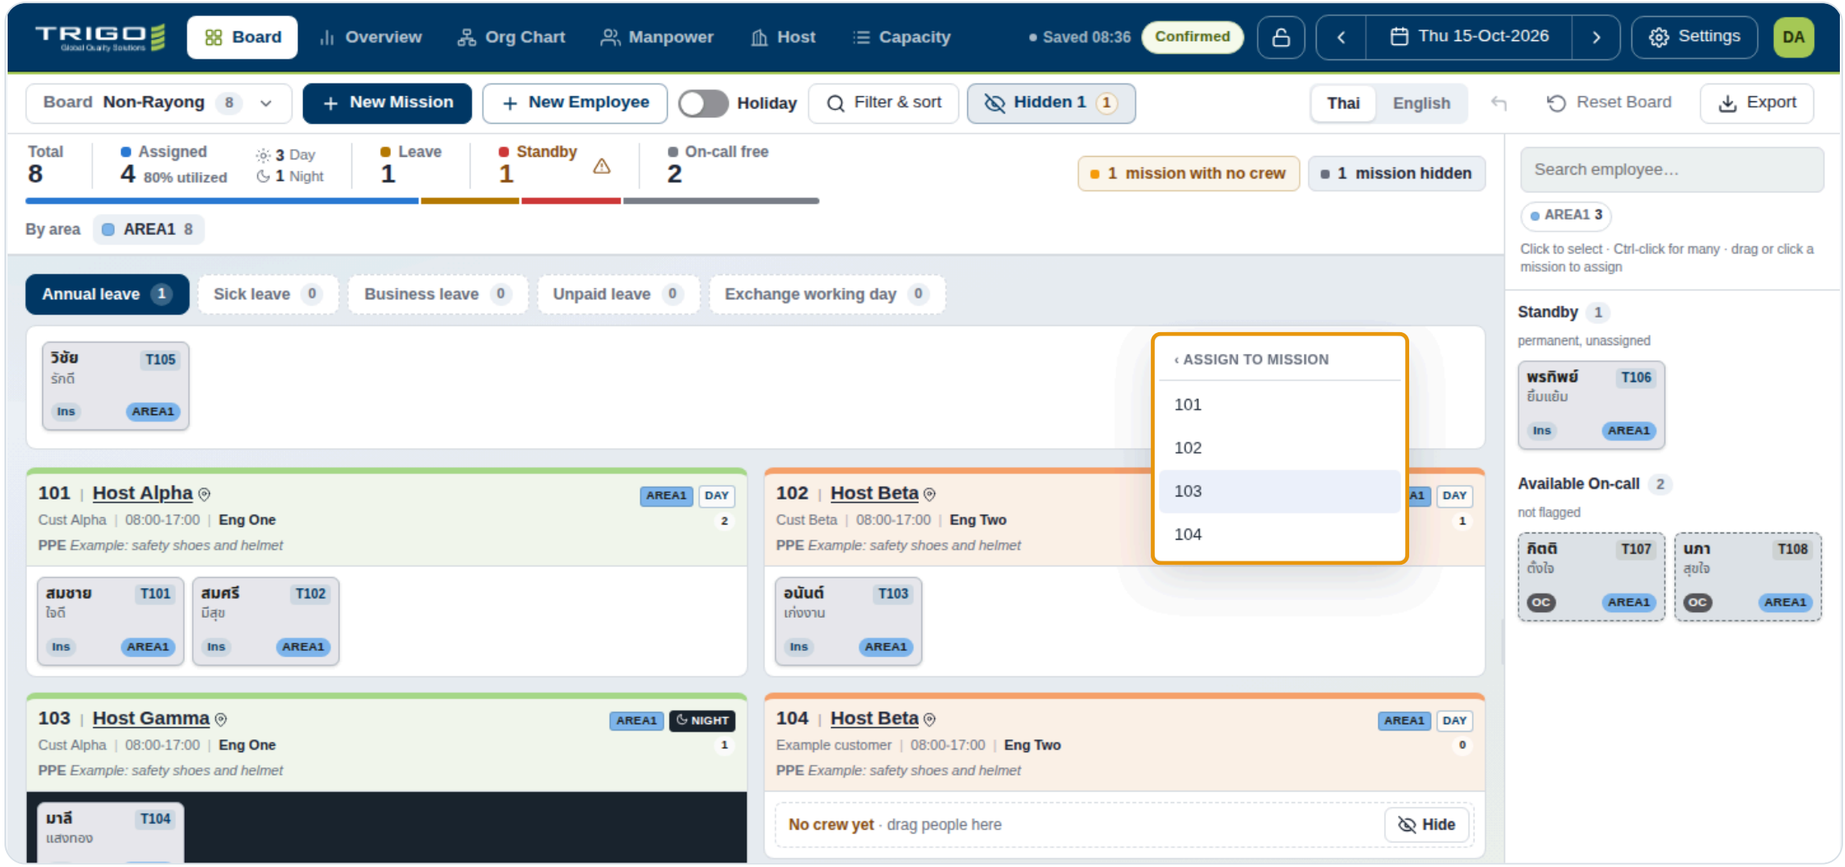

Click a card, then the mission; or drag it. Ctrl-click adds several people to the selection.

3 Use the actions menu if easier

Right-click → Assign to mission → choose the destination. Confirm the crew count afterward.

EDIT ACCESS REQUIRED

Assign people on a computer

Every employee belongs to one board. Undo reverses the latest assignment when available.

EN

Record leave or return to Standby

PEOPLE ON THE BOARD

1 Select the correct people

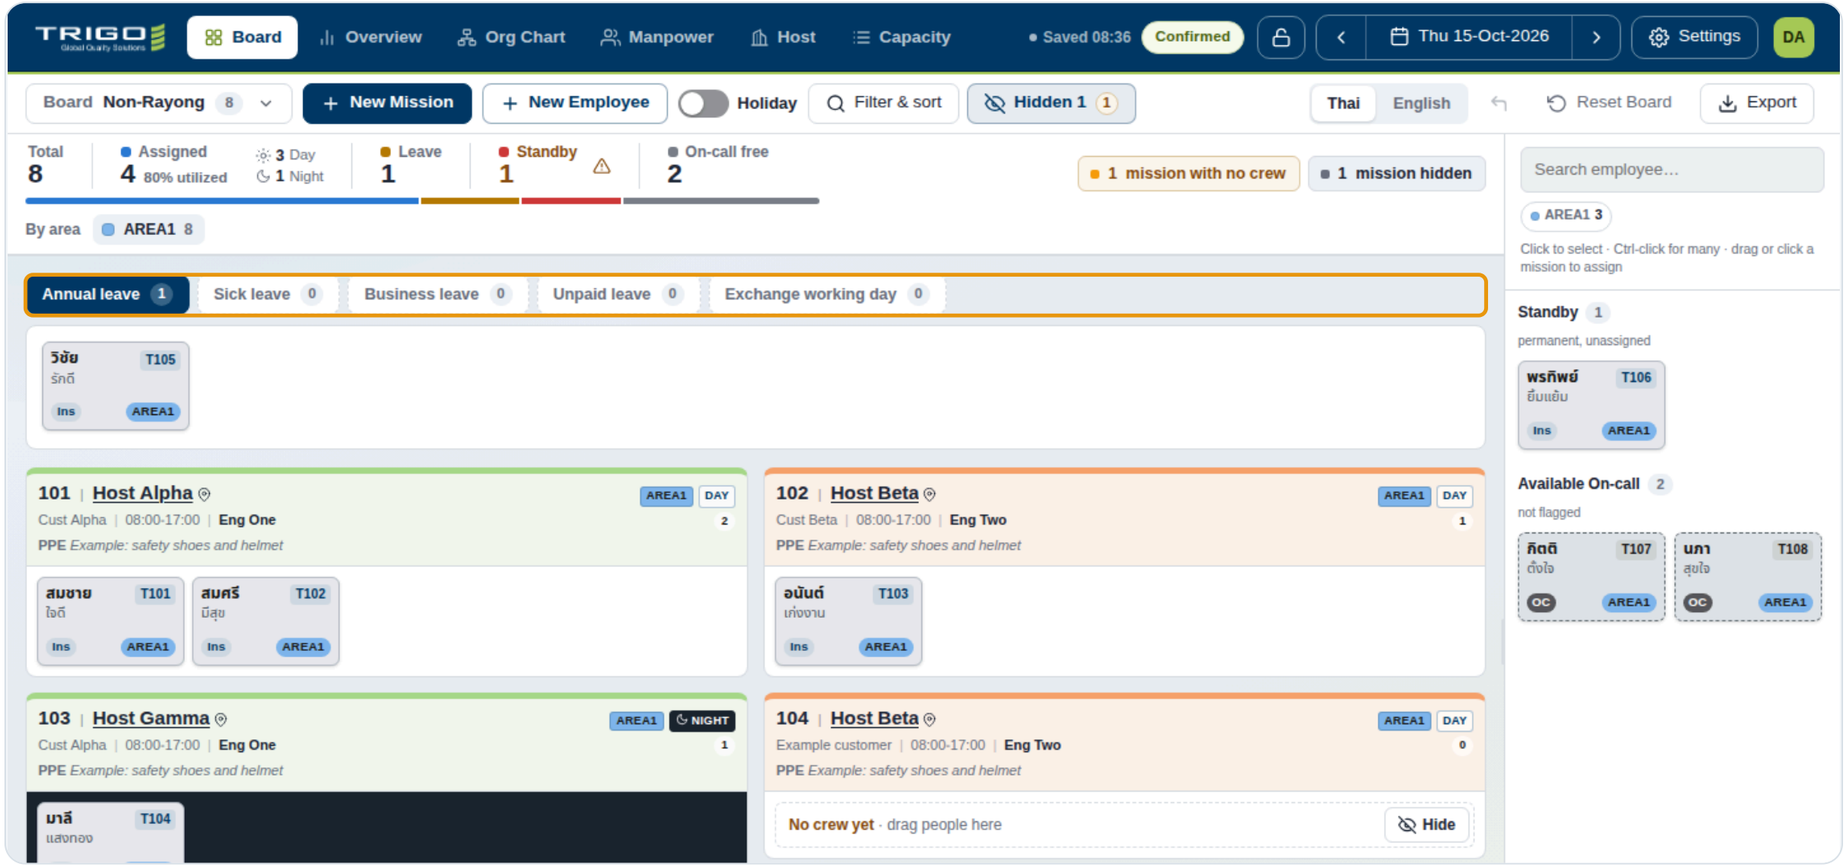

Check the board and date before moving anyone.

2 Choose the leave type

Click or drop on the Annual / Sick / Business / Unpaid / Exchange tab, or use the actions menu.

3 Return people to the pool

Use the appropriate Standby or Available On-call action when they are no longer assigned.

Leave counts update with each move. A filter changes visibility, not assignments.

EDIT ACCESS REQUIRED

EN

Search, filter and choose name language

PEOPLE ON THE BOARD

1 Find a person in Search employee

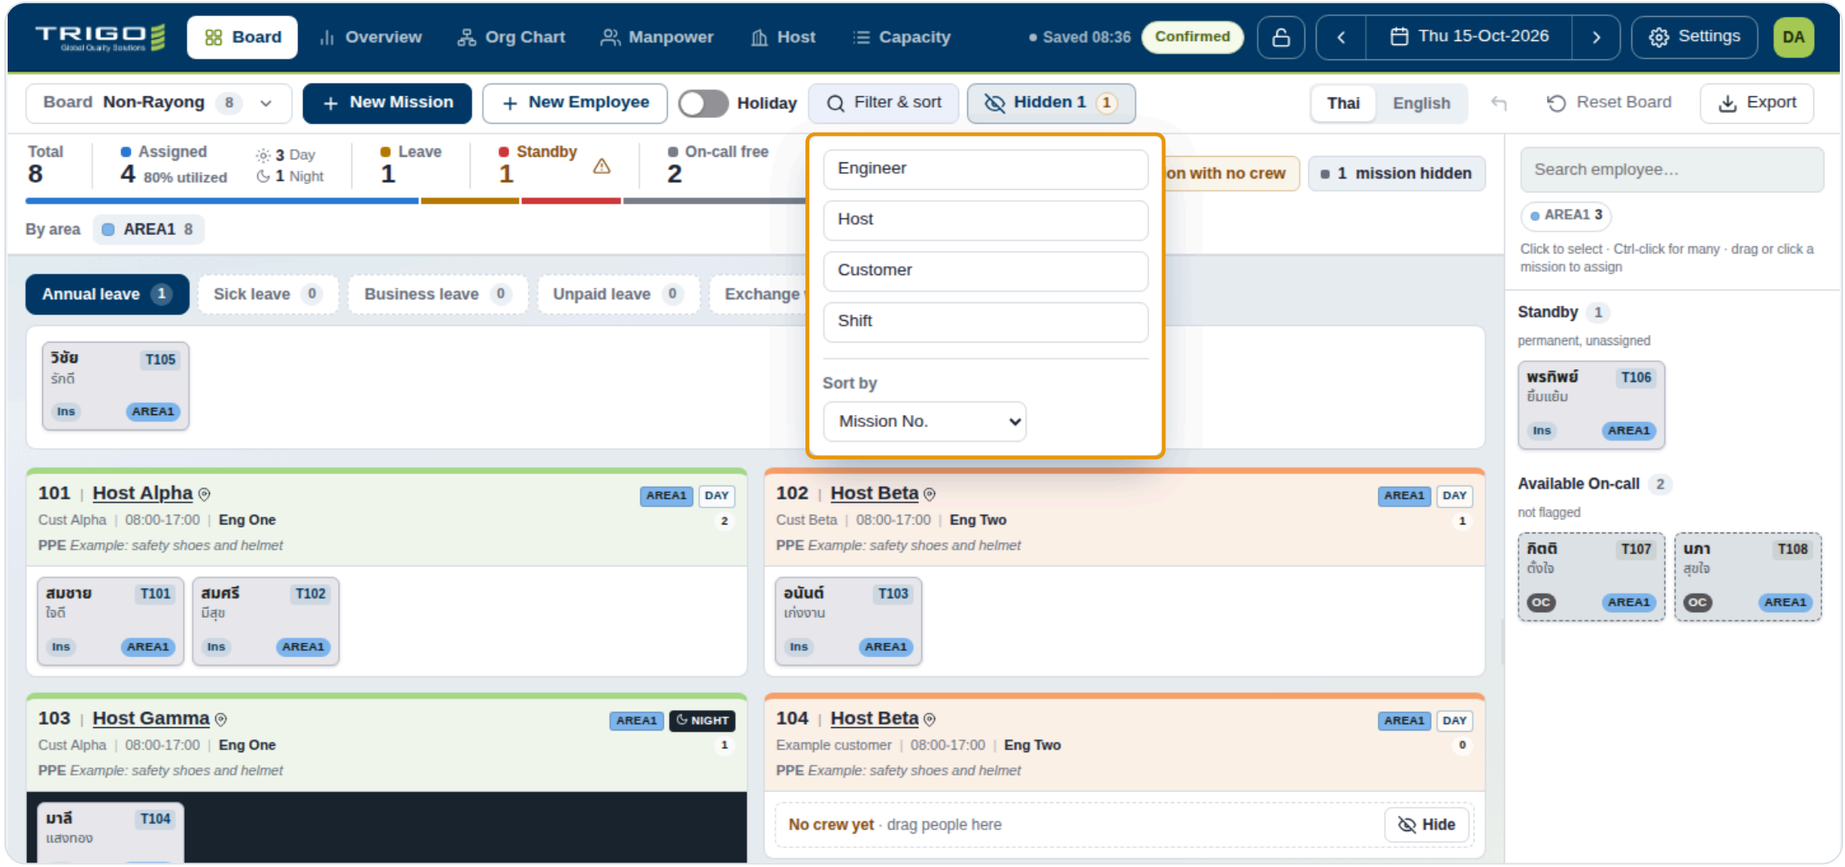

Assigned or leave matches are pointed out on the board.

2 Open Filter & sort

Choose Engineer, Host, Customer or Shift and the sort order. The button shows active filter count.

3 Use Thai / English

The board and Manpower list now have two name choices. Clear filters to return to the full view.

English display falls back to the Thai name when no English name is recorded. The old Both choice is no longer shown.

EN

TRIGO
Global Quality Solutions

ON YOUR PHONE

1 Tap the board name and date

Switch board from its name. Use the date arrows and the status pill to stay on the right day.

2 Tap the summary or Filter

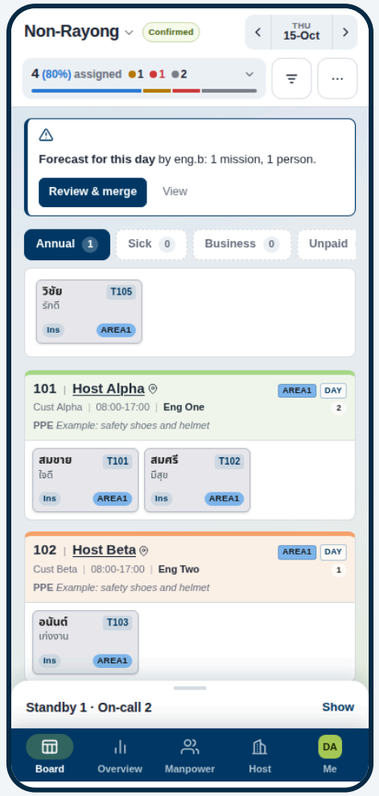

The summary opens full numbers. Filter opens a sheet; ⋯ opens actions such as New mission and Export.

3 Use the bottom bar and Me

Board, Overview, Manpower and Host are direct tabs. Me contains Org Chart, Capacity, Lock, Settings and Sign out.

ALL USERS · SUBJECT TO ROLE

Navigate the new phone layout

Use the phone controls

The header folds into one line while scrolling. Scroll to the top to open the full summary again.

Real app in a 390px emulated phone viewport.

The header folds into one line while scrolling. Scroll to the top to open the full summary again.

EN

TRIGO
Global Quality Solutions

ON YOUR PHONE

1 Open the people drawer

Tap the Standby / On-call strip above the bottom bar. Search for people if needed.

2 Tap the people to select

Add more people by tapping them. Then tap Place to close the drawer.

3 Tap a mission or leave tab

Place the selected people, then check the result. Use Clear to cancel or long-press for actions.

EDIT ACCESS REQUIRED

Select people, tap Place, then a target

Use the phone controls

The drawer is the phone's people pool. It replaces the old always-visible side panel.

Save stays at the bottom of full-screen forms. Available commands follow your role.

TRIGO
Global Quality Solutions

ROSTER AND SITES

Add or edit an employee record

1 Open New Employee or Edit

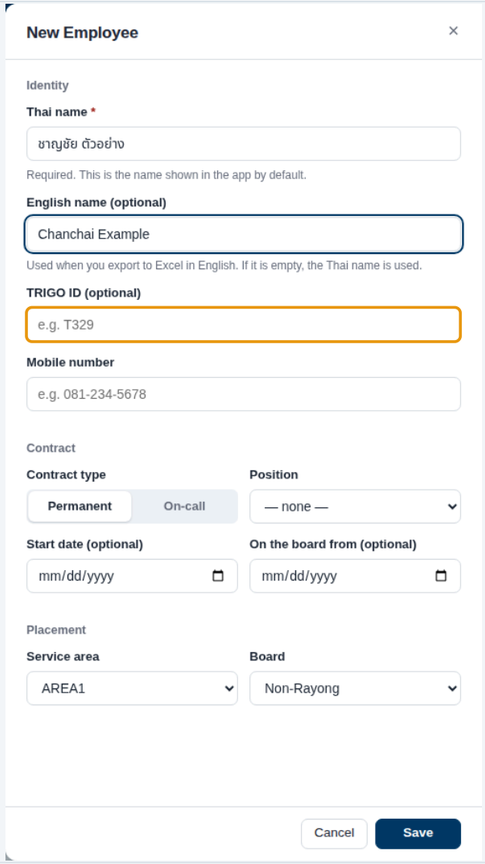

On desktop, double-click a card or use its menu. On phone, use ⋯ or the card actions.

2 Enter identity separately

Thai name is required, English name optional. Put T + digits in TRIGO ID, not in the name.

3 Set contract, board and dates

Use the Permanent / On-call segments. Choose area, board, position and known dates, then Save.

Start date is the hire date. On the board from controls the first date the person counts in app plans.

EDIT ACCESS REQUIRED

EN

TRIGO
Global Quality Solutions

ROSTER AND SITES

1 Search, filter or sort

Search by name, TRIGO ID or phone. Open Filters or select a By area chip.

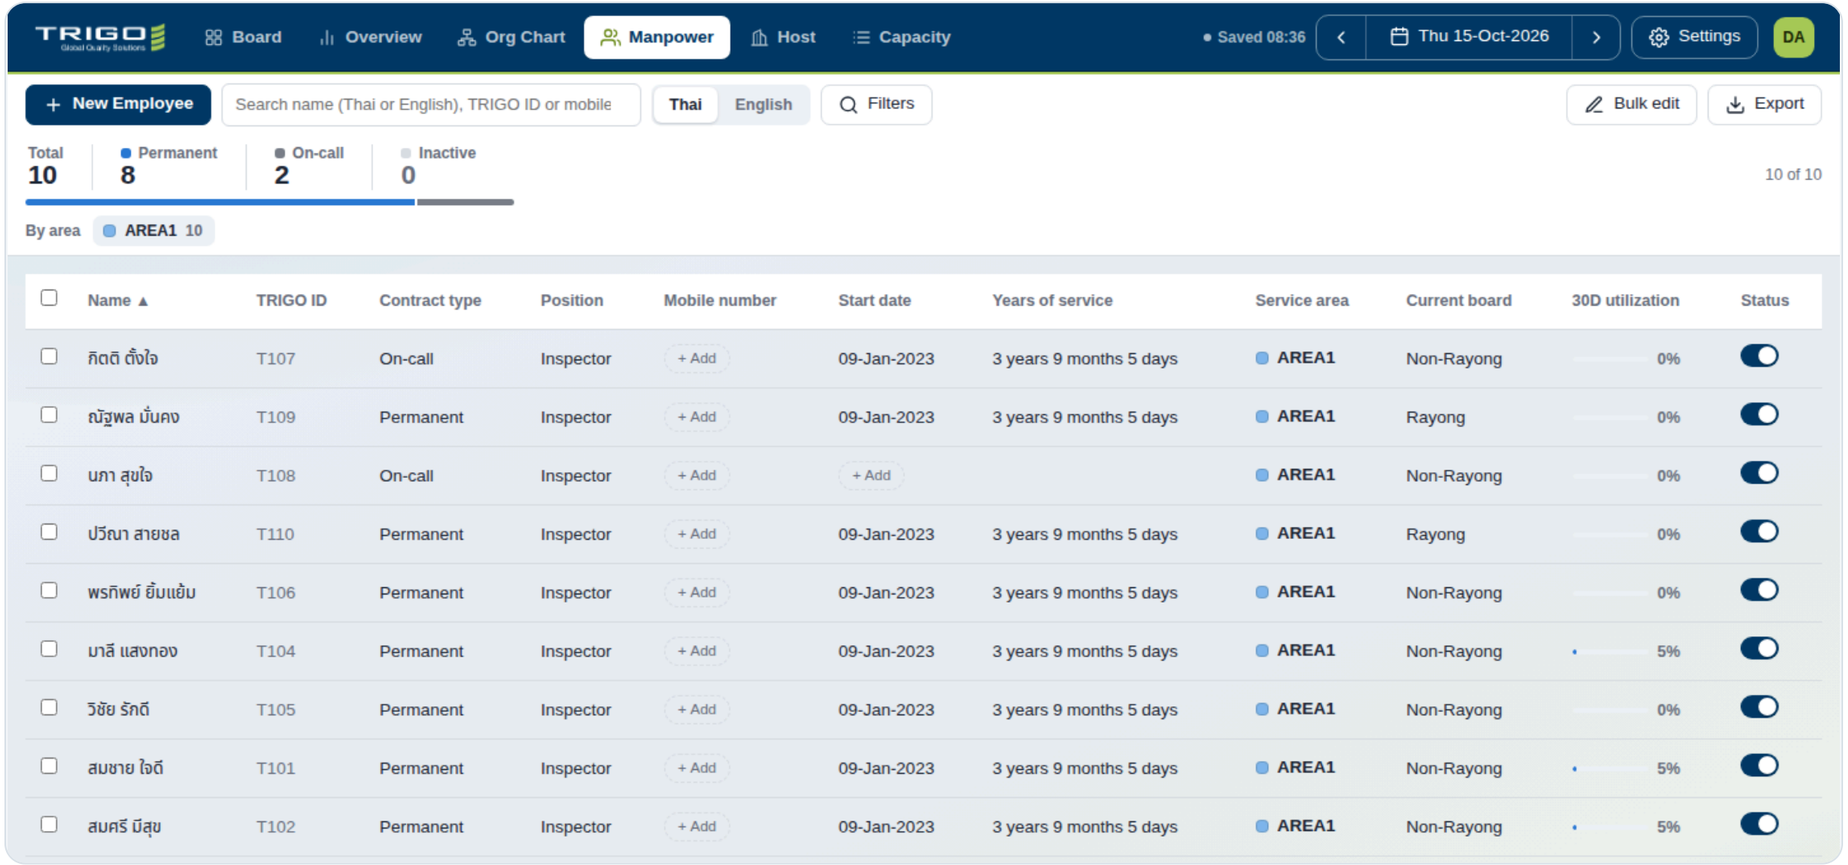

2 Repair missing details

Use a visible alert or + Add action to open the employee at the missing field.

3 Review Active status

Inactive staff leave today's and future plans, while earlier records are kept. Export follows the current filters.

Review the Manpower list and alerts

Excel reports years, months and days of service from Start date. New hires do not rewrite older headcounts.

ALL USERS · SUBJECT TO ROLE

EN

TRIGO
Global Quality Solutions

ROSTER AND SITES

1 Open Bulk edit and download the template

It contains the currently filtered list and internal IDs. Keep the ID column.

2 Edit and upload the .xlsx

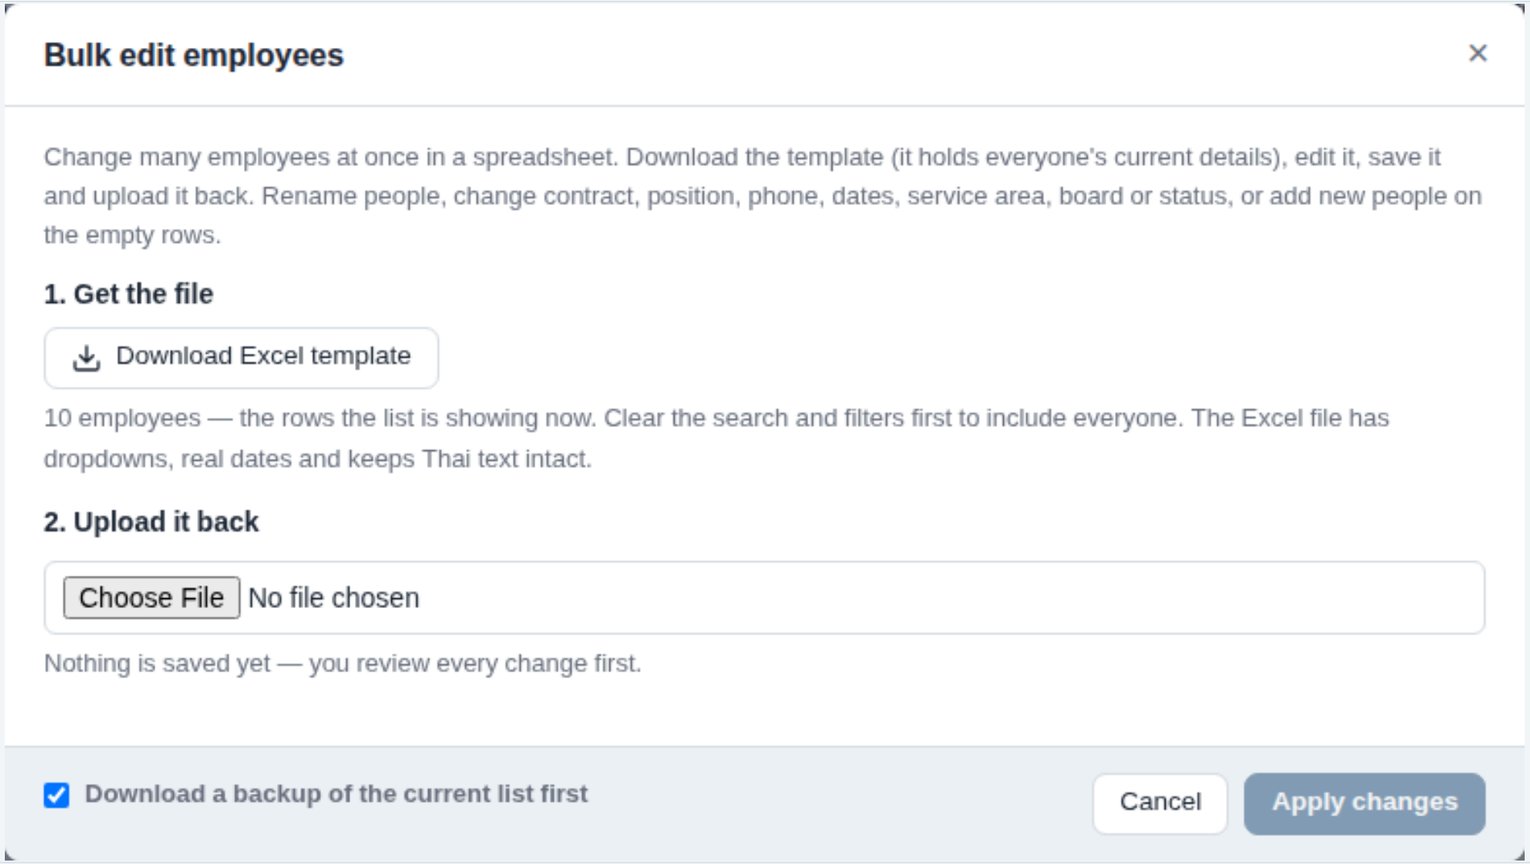

Review To update, New, Unchanged and Problems, including each old → new value.

3 Back up, then Apply

Keep the backup option. Add new rows only if intended; correct flagged rows and upload again if needed.

EDIT ACCESS REQUIRED

Bulk edit with an Excel template

Only .xlsx is accepted: up to 5 MB and 5,000 rows. Missing rows are not deleted; a board move clears that day's assignment.

EN

TRIGO
Global Quality Solutions

ROSTER AND SITES

1 Open Host and search

Search site, location, inspector or board. Use filters or By area chips.

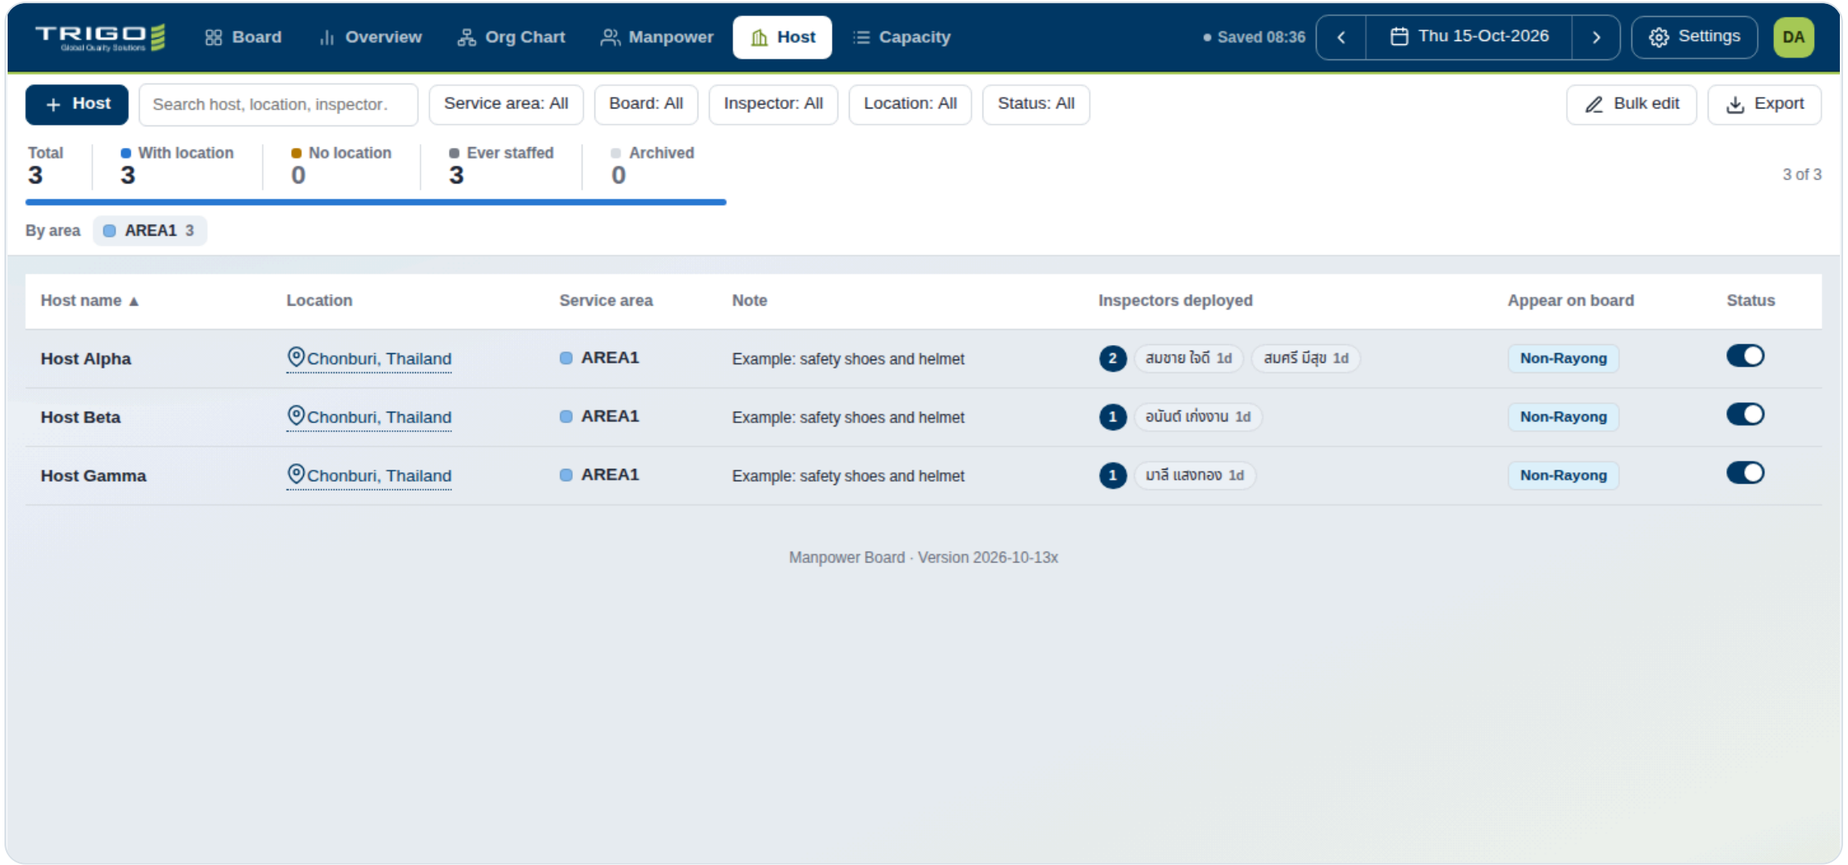

2 Open the record to update details

Editors can set name, location, map link, area and note. Save the record panel.

3 Use the mission's host link

An underlined host with a map pin opens the recorded map or an address search.

Find a host, site note and map

Host notes also appear in the mission PPE line. Archive is for a retired site; Merge is for duplicates.

Read Overview for all or one board

READ THE PLAN

1 Choose the date and Board

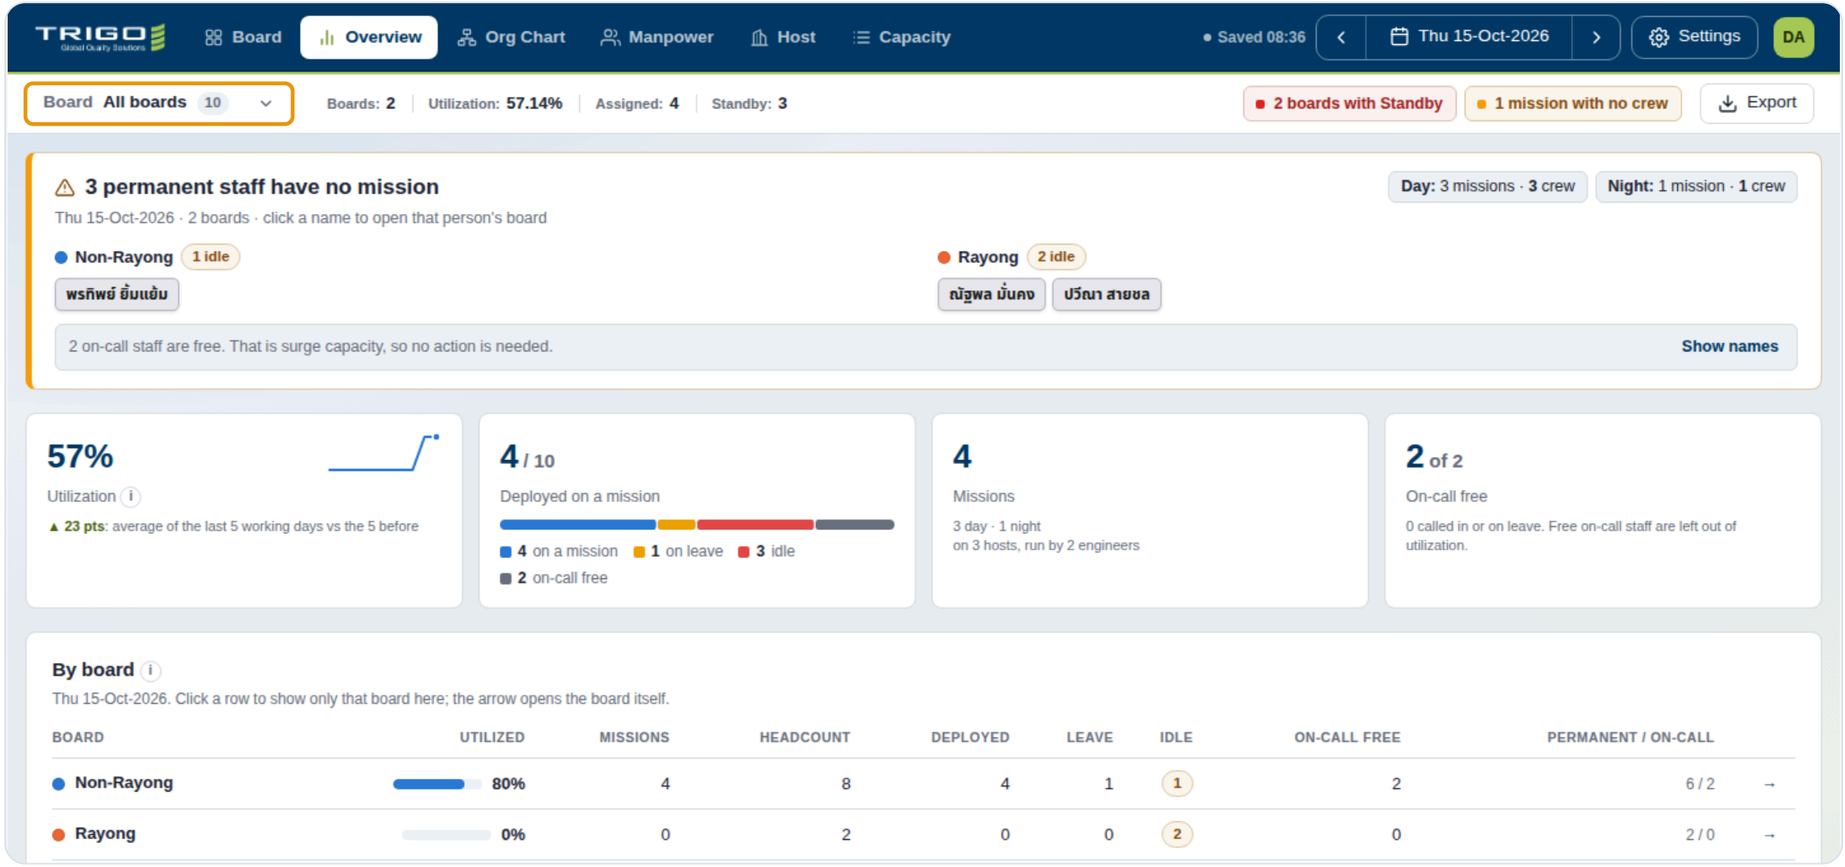

All boards or a single board scopes the entire dashboard and its export.

2 Read the attention card and KPIs

Check idle permanent people, utilization, deployed crew, missions and free on-call.

3 Follow the detail rows

By board can scope the dashboard. By engineer opens the filtered board; By area, Shifts and Host coverage explain the day.

Role permissions determine visible sections. Free on-call is surge capacity and is excluded from daily utilization's denominator.

EN

TRIGO
Global Quality Solutions

READ THE PLAN

1 Choose the board and history range

Use This month, Last month, 30d, 90d, YTD or a custom range.

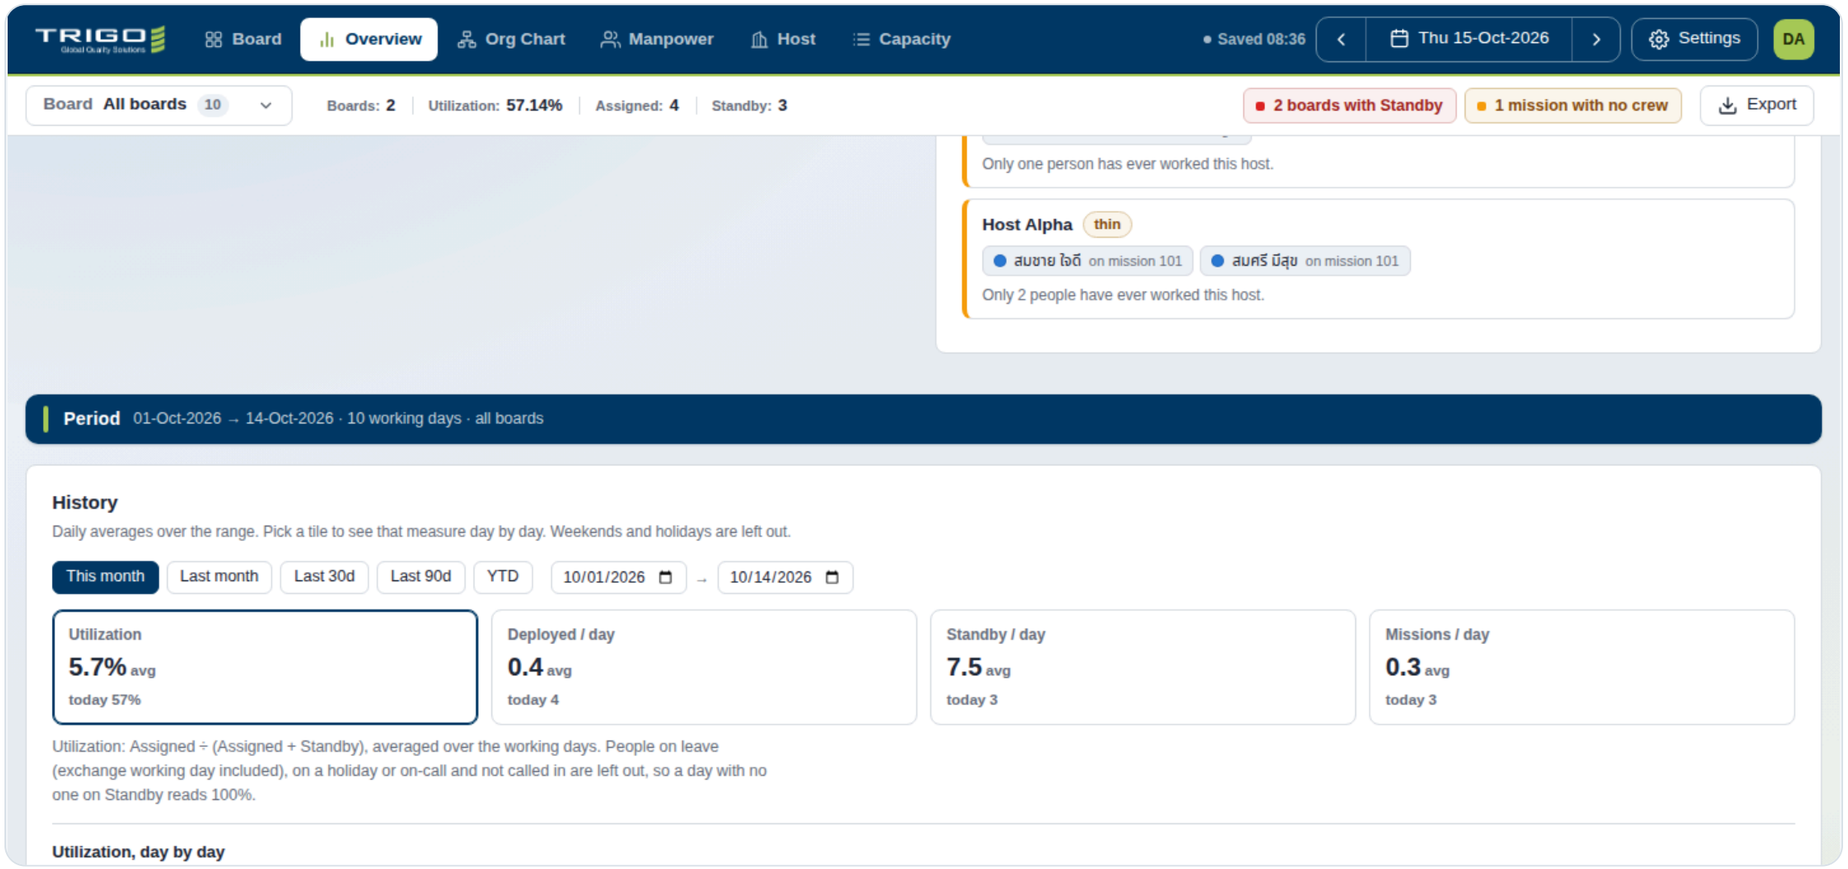

2 Choose the metric to chart

History offers Utilization, Deployed / day, Standby / day and Missions / day with range averages.

3 Read Engineer workload

The ranked table shows mission and crew load, permanent / on-call split, active days and trends.

Explore History and Engineer workload

Working-day calculations exclude weekends and holidays. Past reports keep historical headcounts and deployments.

EN

TRIGO
Global Quality Solutions

READ THE PLAN

1 Open Org Chart and check date

On phone, find it in Me.

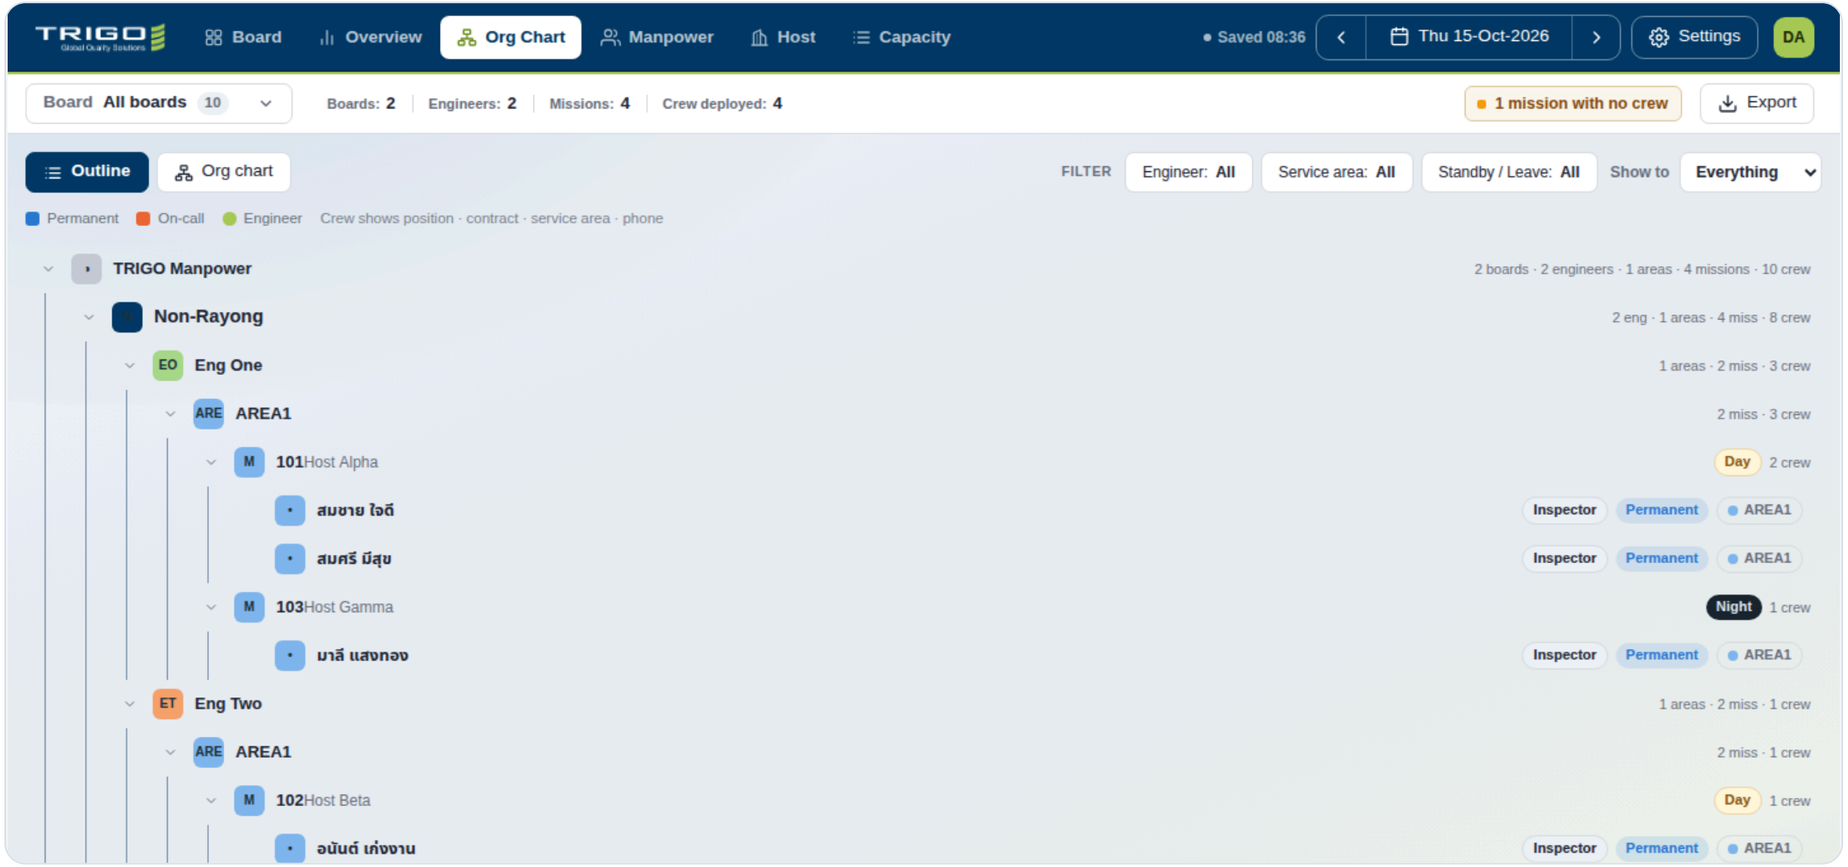

2 Choose Board, Engineer and Service area

Use Show to to select how far down the hierarchy to display. Switch outline or chart as needed.

3 Filter Standby / Leave

All includes everyone. None shows mission crew only. Individual status choices carry through to counts and exports.

Explore and filter Org Chart

The chart represents the confirmed plan. Mission leads can show their account's role.

ALL USERS · SUBJECT TO ROLE

TRIGO
Global Quality Solutions

SAVE AND SHARE

1. **Set the board, filters and Show to**

   The export follows the visible scope.

2. **Select Export → PowerPoint**

   Check the slide count and thumbnail previews. Wide boards may split across slides.

3. **Select Export n slides**

   Open the downloaded .pptx. Names and cards are editable PowerPoint text and shapes.

ALL USERS · SUBJECT TO ROLE

Export Org Chart as editable PowerPoint

PowerPoint export is an Org Chart option. It is not offered as a board Excel replacement.

EN

TRIGO
Global Quality Solutions

READ THE PLAN

1. **Review the correct board and date**

   Check people, shifts, leave and mission details.

2. **Select Lock**

   Desktop uses the header control; phone uses Me. The board becomes view-only for everyone.

3. **Read any unlock confirmation**

   It identifies who locked the plan. Unlocking reopens it for everyone, not only you.

EDIT ACCESS REQUIRED

Lock a finished plan and check save state

A saved / saving / failed indicator shows synchronization. On phone it is the dot on Me; investigate a failed state.

TRIGO
Global Quality Solutions

PLAN AHEAD

1 Choose a later date

Beyond the board's next working day the status becomes Forecast.

2 Start from confirmed or Add Mission

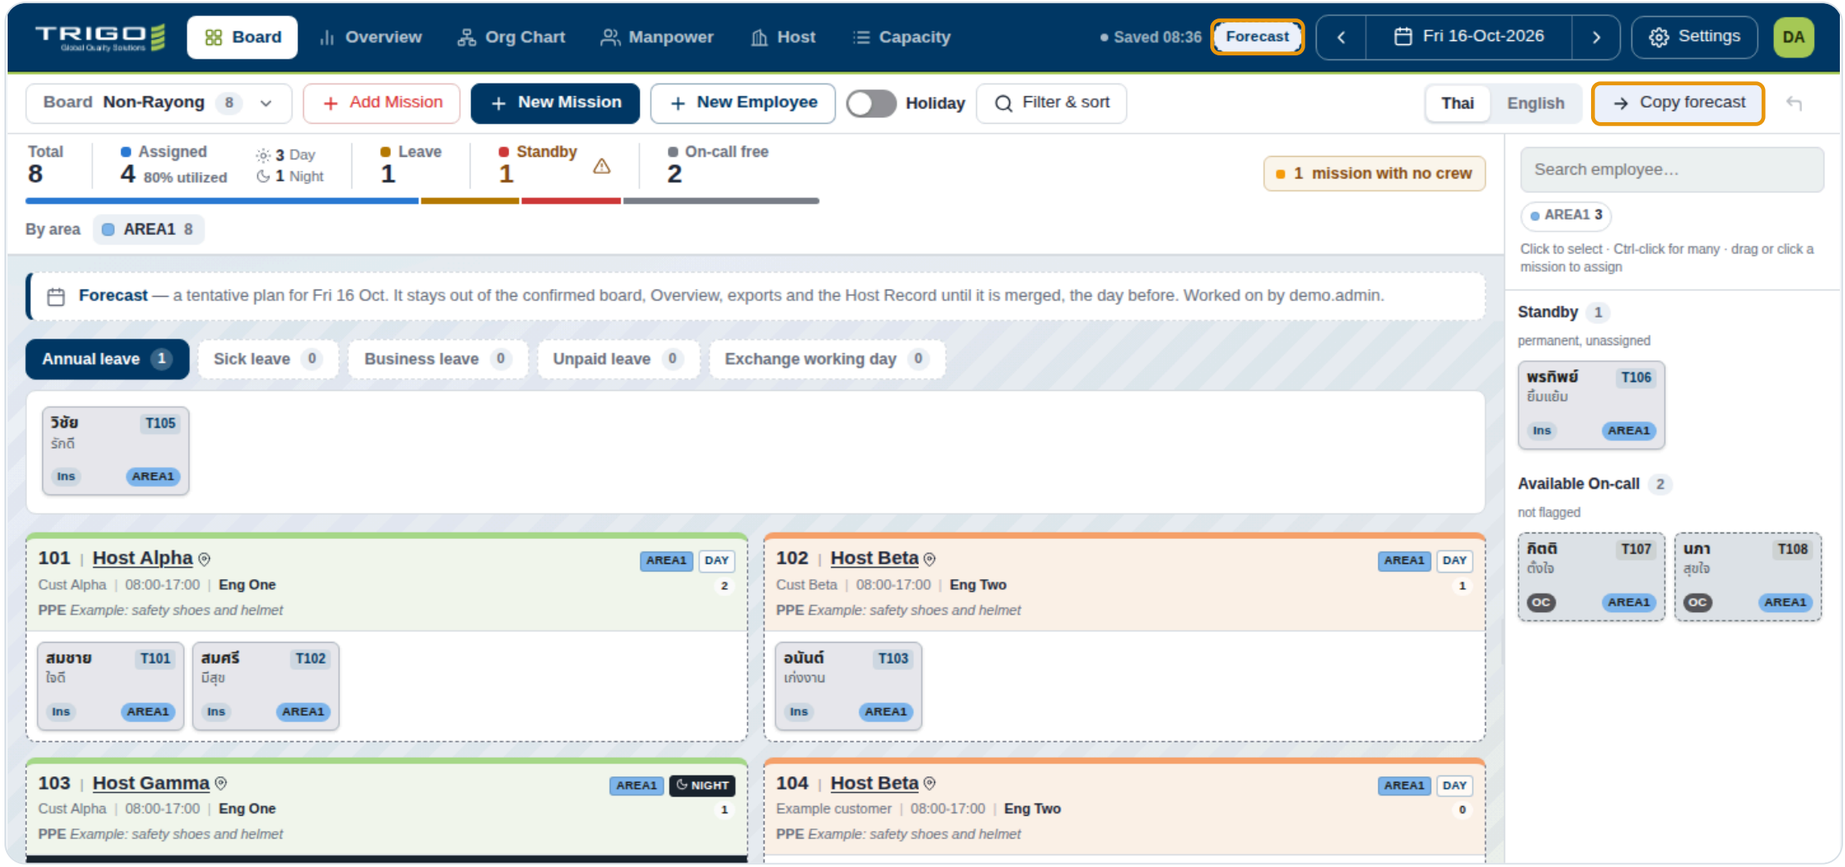

Bring in the relevant confirmed missions, then adjust details and people.

3 Review holds and Copy forecast

People are tentative holds. Confirm before taking another engineer's hold. Copy only fills empty forecast working days.

EDIT ACCESS REQUIRED

Create a tentative forecast

Forecast does not change the confirmed board, Overview or exports until merged.

TRIGO
Global Quality Solutions

PLAN AHEAD

1 Open Review & merge when offered

When the day becomes confirmed, compare carry-over and forecast side by side.

2 Resolve every difference

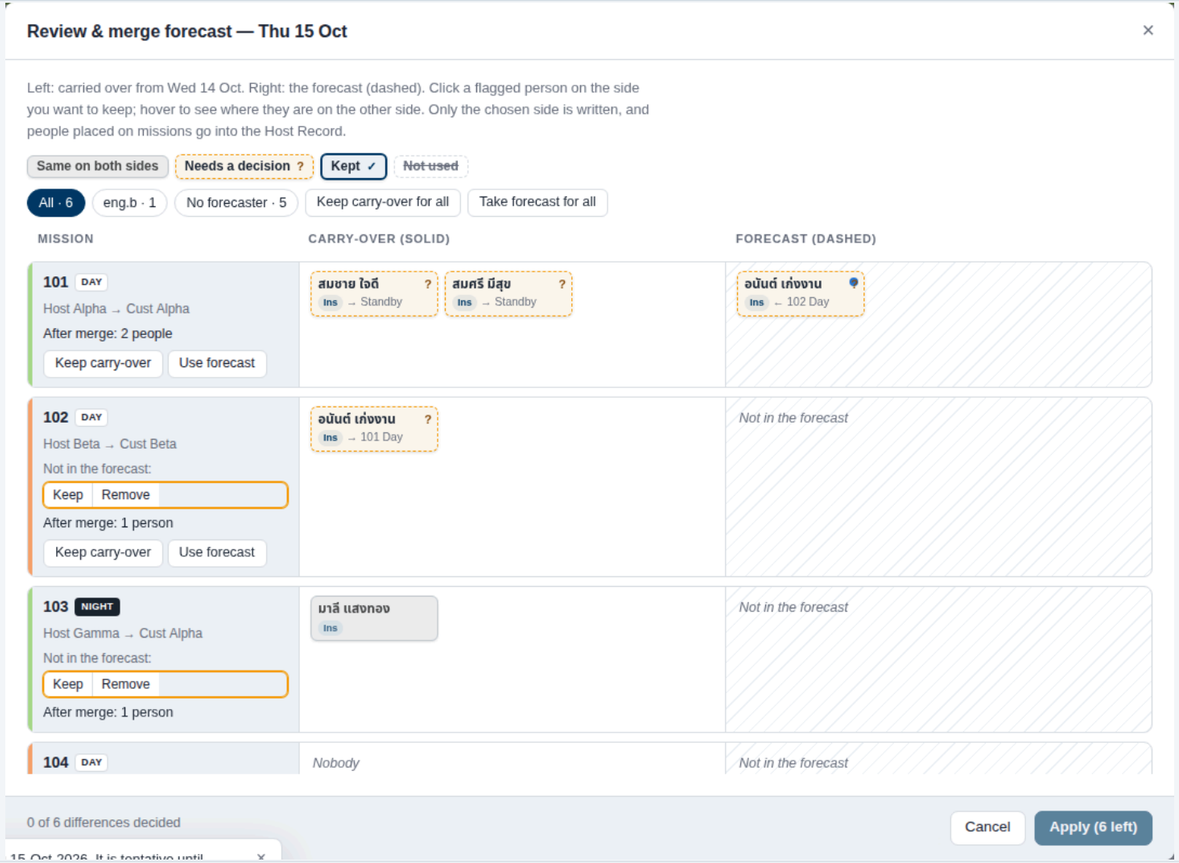

Choose the side to keep for people, mission details and added or omitted missions.

3 Apply, inspect and confirm

Check the final crew summary. Give a reason when helpful; alerts and the Decisions log explain unused choices.

EDIT ACCESS REQUIRED

Review and merge the forecast

The app does not choose conflicting changes for you. Forecast is retained as a read-only reference.

TRIGO
Global Quality Solutions

PLAN AHEAD

1 Choose one board and 1–8 weeks

A red board badge shows its short-day count.

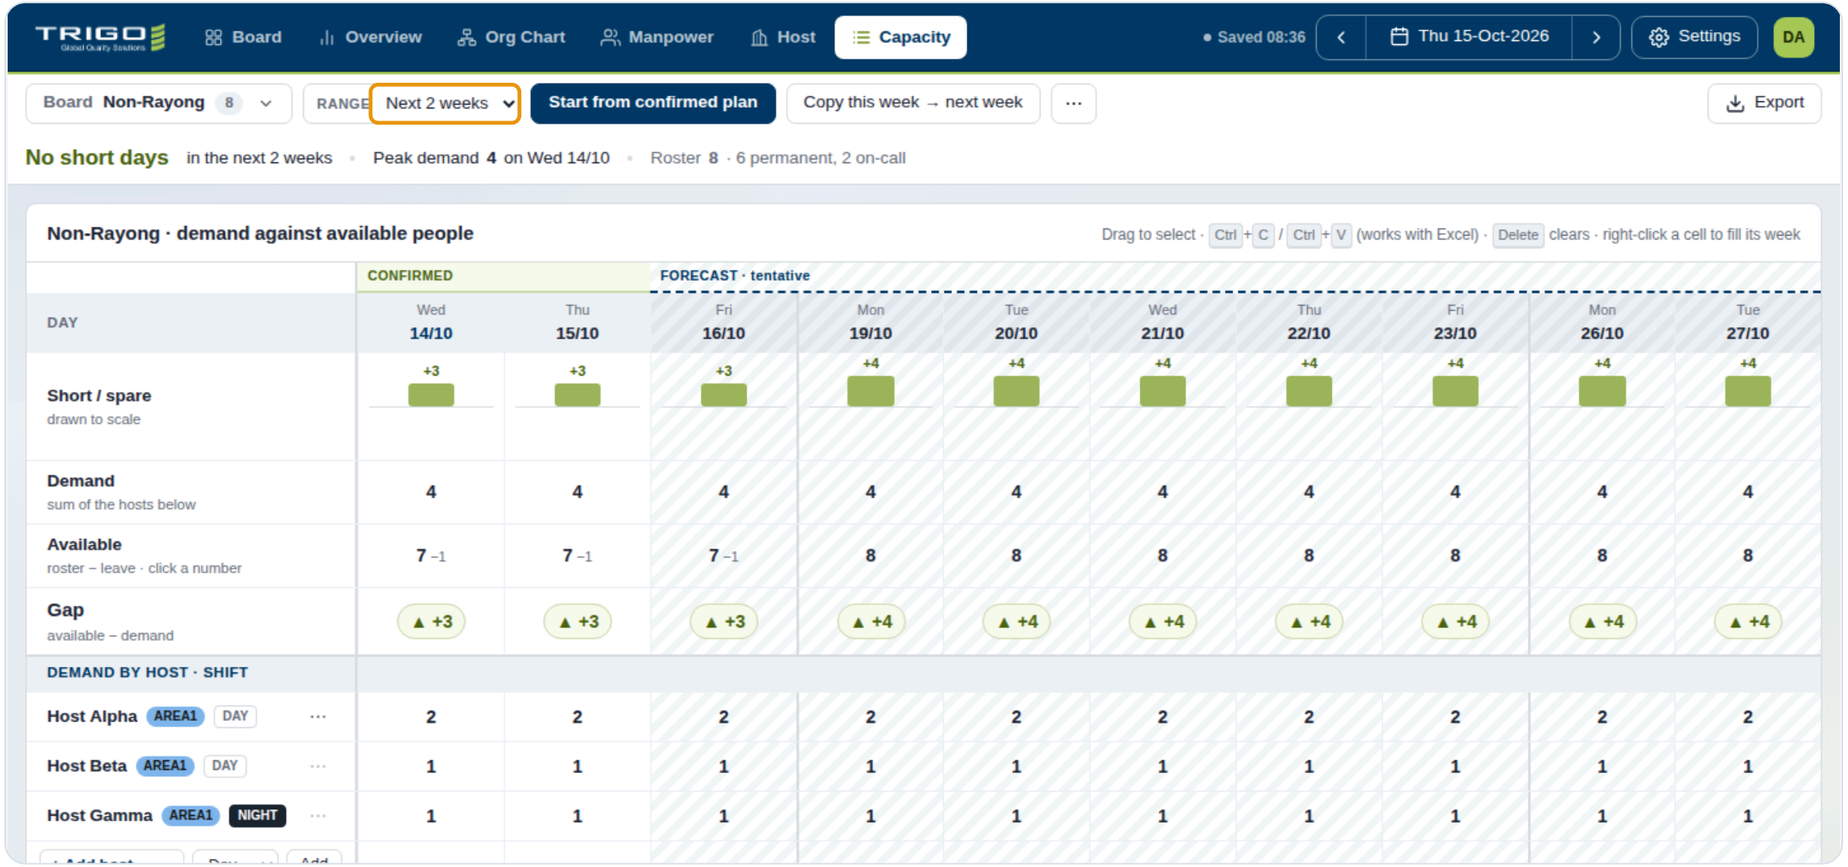

2 Start from confirmed and enter demand

Add a Host from + Add host… at the last row. Set demand by host and shift.

3 Read the pinned totals

Dates, Demand, Available and Gap stay visible. The scaled gap plot shows the size of shortages and spare capacity.

Plan demand in the updated Capacity grid

Capacity plans numbers; it does not assign named people. Compare demand with people already named on missions.

ALL USERS · SUBJECT TO ROLE

EN

TRIGO
Global Quality Solutions

PLAN AHEAD

1 Click an Available number

Read the permanent / on-call split, leave and named-on-board count. Escape closes the details.

2 Copy or remove deliberately

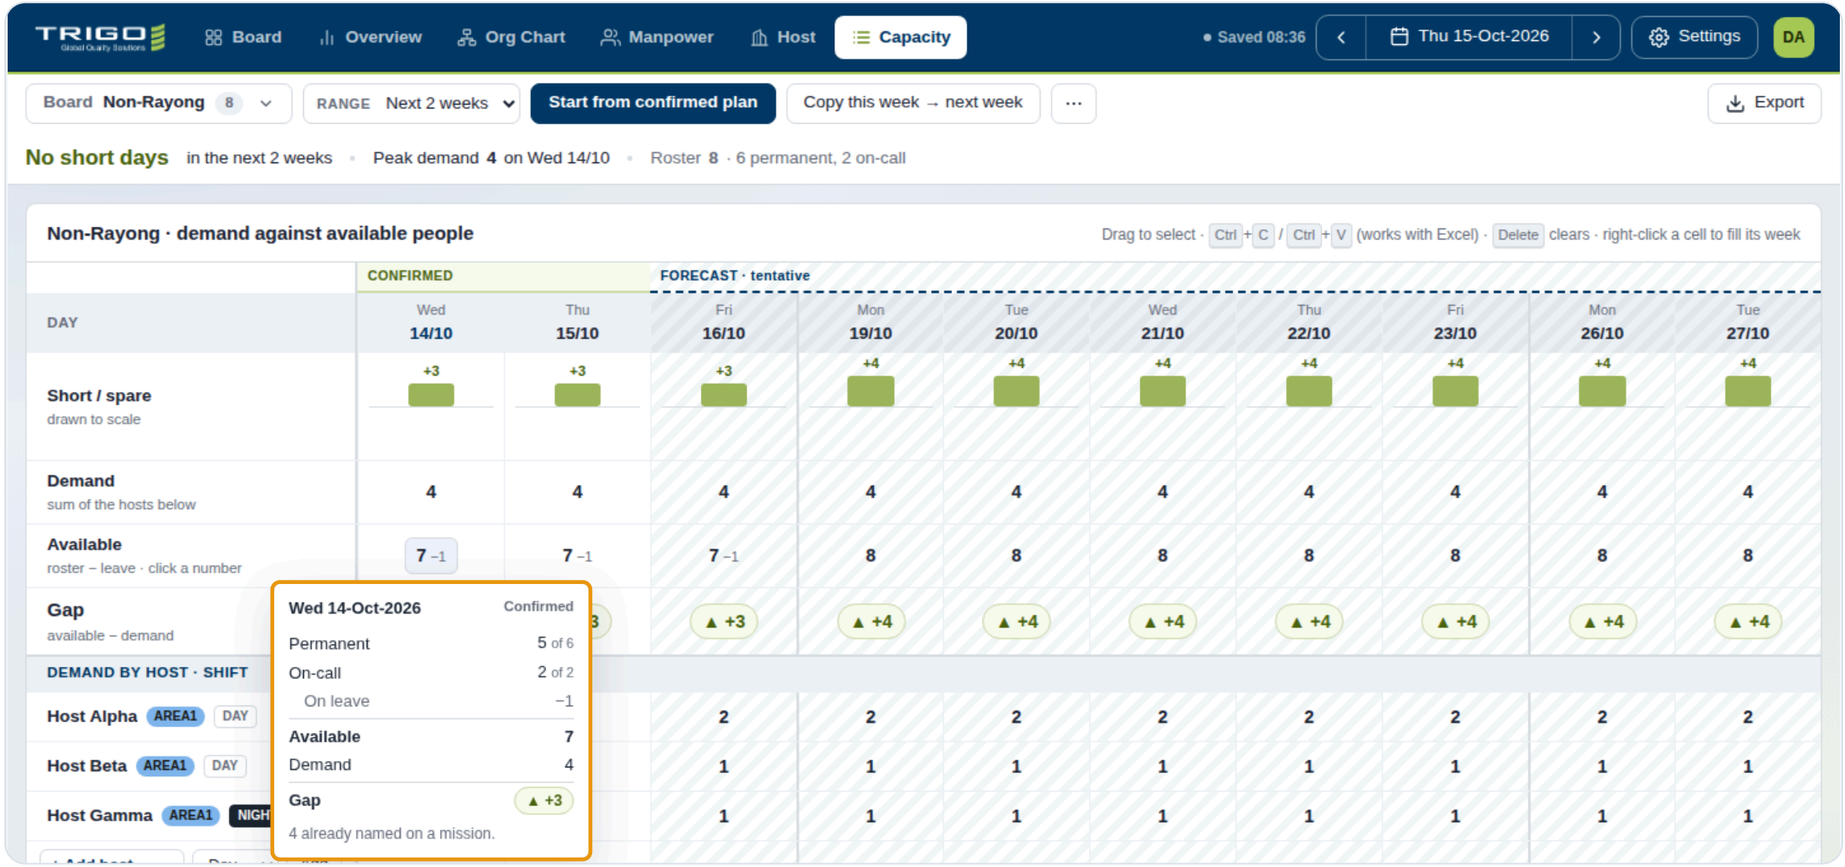

Use Copy this week → next week, cell copy/paste, or row ⋯ → Remove this row… as permitted.

3 Find Reset to 0 in toolbar ⋯

It resets future demand for the selected board, keeping host rows and past days. Read the confirmation.

EDIT ACCESS REQUIRED

Check availability and manage demand rows

Reset to 0 cannot be undone. Export first if the current demand must be retained.

EN

TRIGO
Global Quality Solutions

ON YOUR PHONE

1 Open Me → Capacity

Choose the board, then the Host or step with ‹ and ›.

2 Choose the week and edit each day

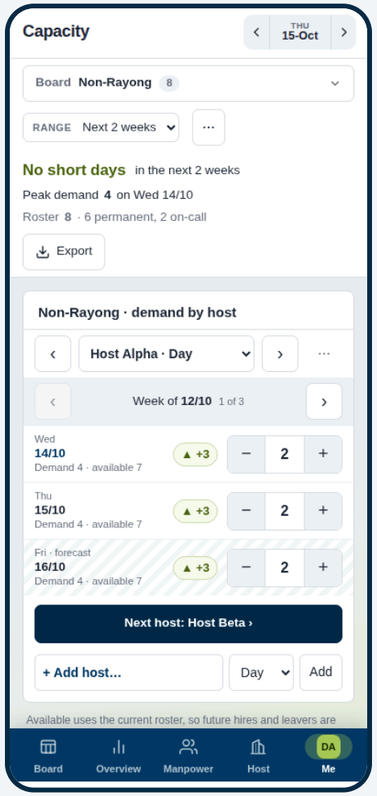

Daily cards show board Gap and a − / number / + stepper for this host. Viewers see numbers only.

3 Continue to the next host

Use Next host or + Add host… Start from confirmed, Copy week and Reset are in toolbar ⋯.

ALL USERS · SUBJECT TO ROLE

Plan Capacity one host at a time on phone

Use the phone controls

A host's day demand affects the board's total gap. Review the host and week before tapping a stepper.

Real app in a 390px emulated phone viewport.

A host's day demand affects the board's total gap. Review the host and week before tapping a stepper.

TRIGO
Global Quality Solutions

SAVE AND SHARE

1 Check Board, date and Thai / English

The exported board uses the name display you selected.

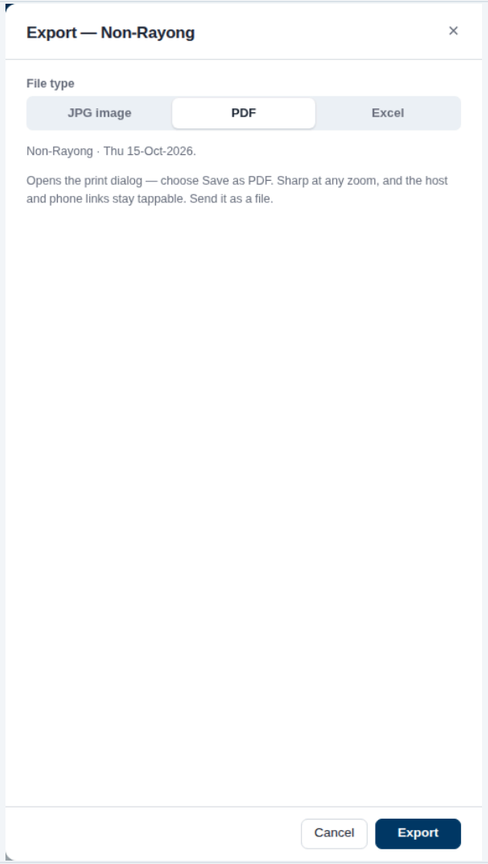

2 Select Export → PDF or JPG

On phone, Export is in ⋯. For PDF, select Export, then Save as PDF in browser printing.

3 Share as a file attachment

PDF keeps supported map and phone links clickable. JPG is suitable when an image is needed.

Save a board PDF or JPG

A forecast board has no export. Empty missions and empty leave lanes are excluded from board output.

ALL USERS · SUBJECT TO ROLE

TRIGO
Global Quality Solutions

SAVE AND SHARE

1 Open Export → Excel

Board and Capacity offer Excel; Manpower and Host exports are Excel lists.

2 Choose language and included details

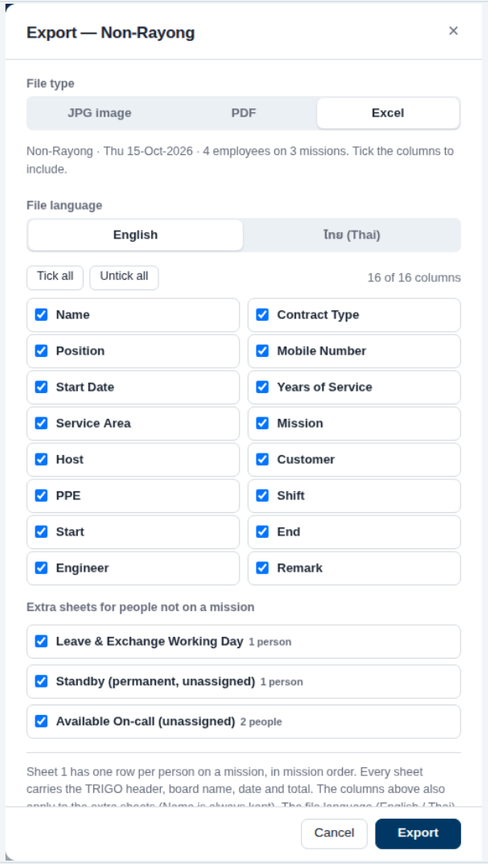

Board exports offer columns and extra Leave / Standby / On-call sheets. The TRIGO ID is retained.

3 Open and review the .xlsx

Names follow the file language where a matching name exists. Years of Service includes years, months and days.

ALL USERS · SUBJECT TO ROLE

Export Excel with language and columns

Exported Excel is a copy. Editing it does not update the app; use Bulk edit's reviewed template flow for list changes.

TRIGO
Global Quality Solutions

YOUR ACCOUNT & SETUP

1. **Open Settings → My account**

   Check your role and status.

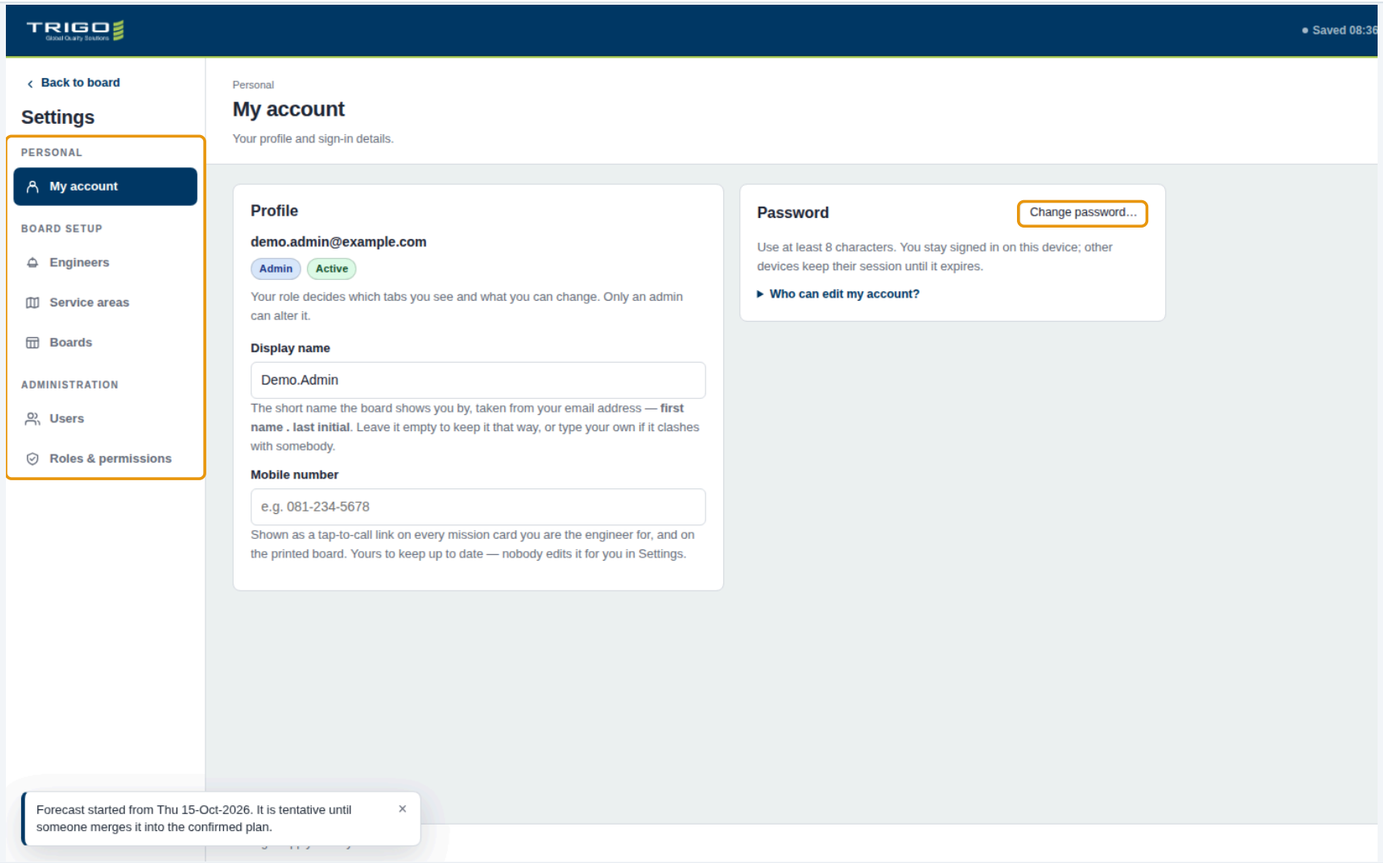

2. **Edit Display name and Mobile number**

   Then select Save changes. Your display name and phone appear on missions you lead.

3. **Use Change password… separately**

   Enter the new password twice, with at least 8 characters, and submit its own form.

Update your profile and password

Forgotten passwords are reset by an admin. Sign out is in the desktop avatar menu or phone Me.

ALL USERS · SUBJECT TO ROLE

EN

TRIGO
Global Quality Solutions

SETUP · EDITORS

1 Choose the relevant Settings section

Engineers links mission leads and colours; Service areas names and colours the area chips.

2 Add records or edit existing ones

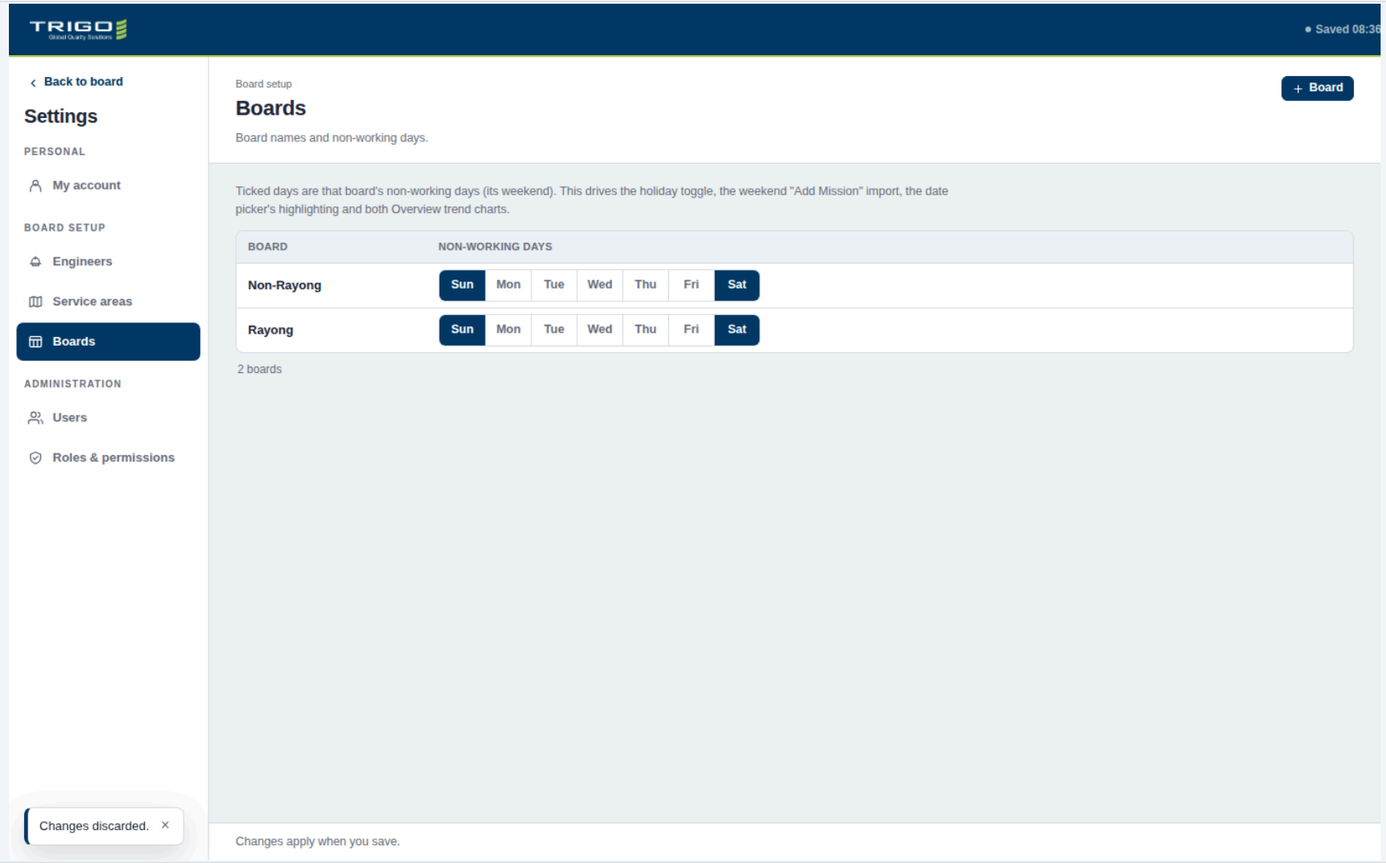

Add engineer / Add area uses its own dialog. Board settings include name and non-working weekdays.

3 Save changes for staged edits

Review unsaved counts, then Save changes. An area with employees cannot be removed before they are moved.

EDIT ACCESS REQUIRED

Maintain Engineers, Service areas and Boards

Board non-working days affect the next working day, forecasts, holidays and working-day reports.

EN

TRIGO
Global Quality Solutions

ADMINISTRATORS

1 Open Settings → Users

Use Review requests for pending access, or Add user for a new company account.

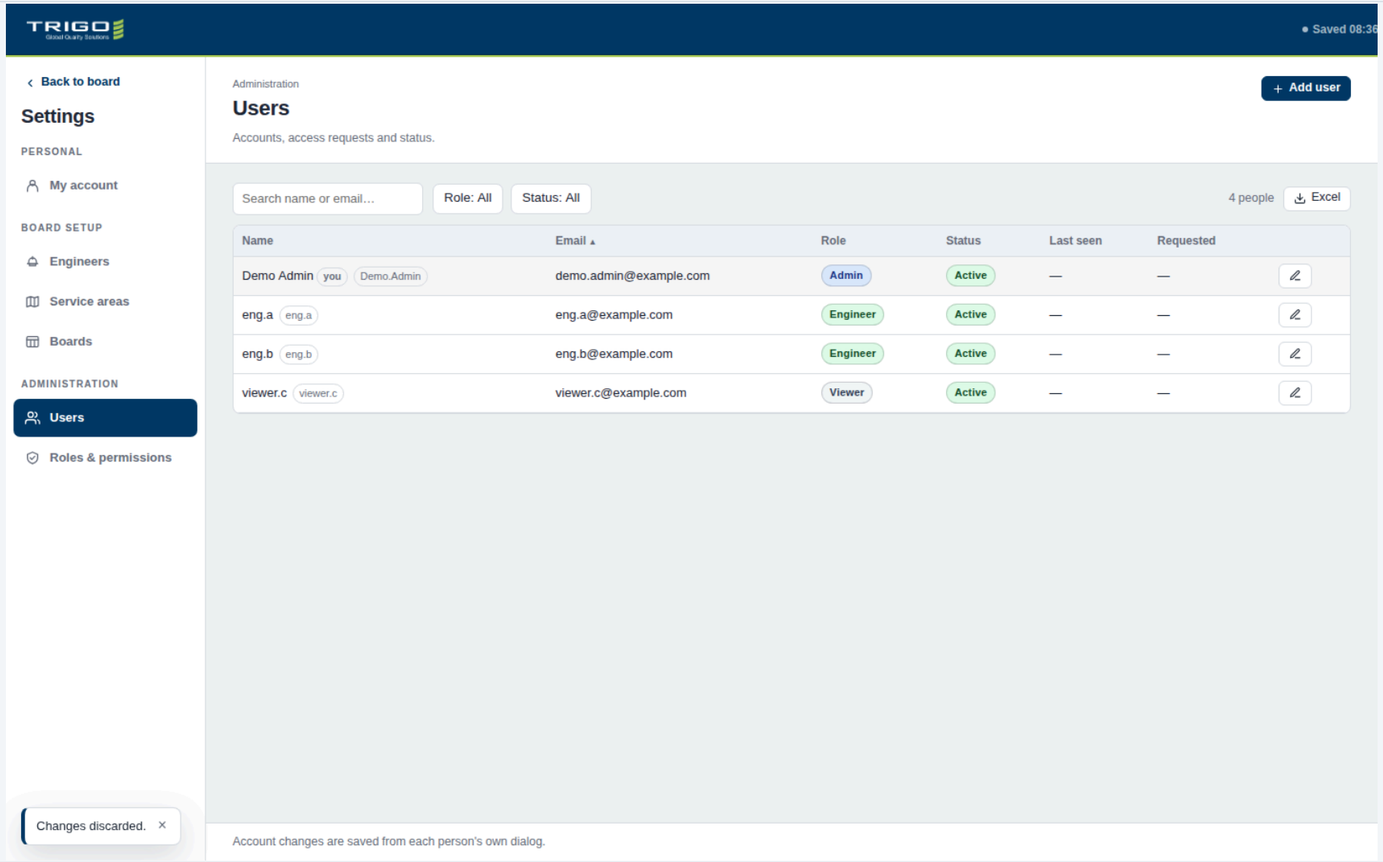

2 Set the role and status

Approve the intended user. Disable preserves their history while preventing sign-in.

3 Reset a forgotten password

Use the user's Reset password action. Pass the temporary password through your normal secure channel.

Approve users and issue temporary passwords

The password is shown once. The user chooses their own on first sign-in. The last admin is protected.

TRIGO
Global Quality Solutions

ADMINISTRATORS

1 Open Roles & permissions

Choose the role on phone; desktop shows the permission matrix.

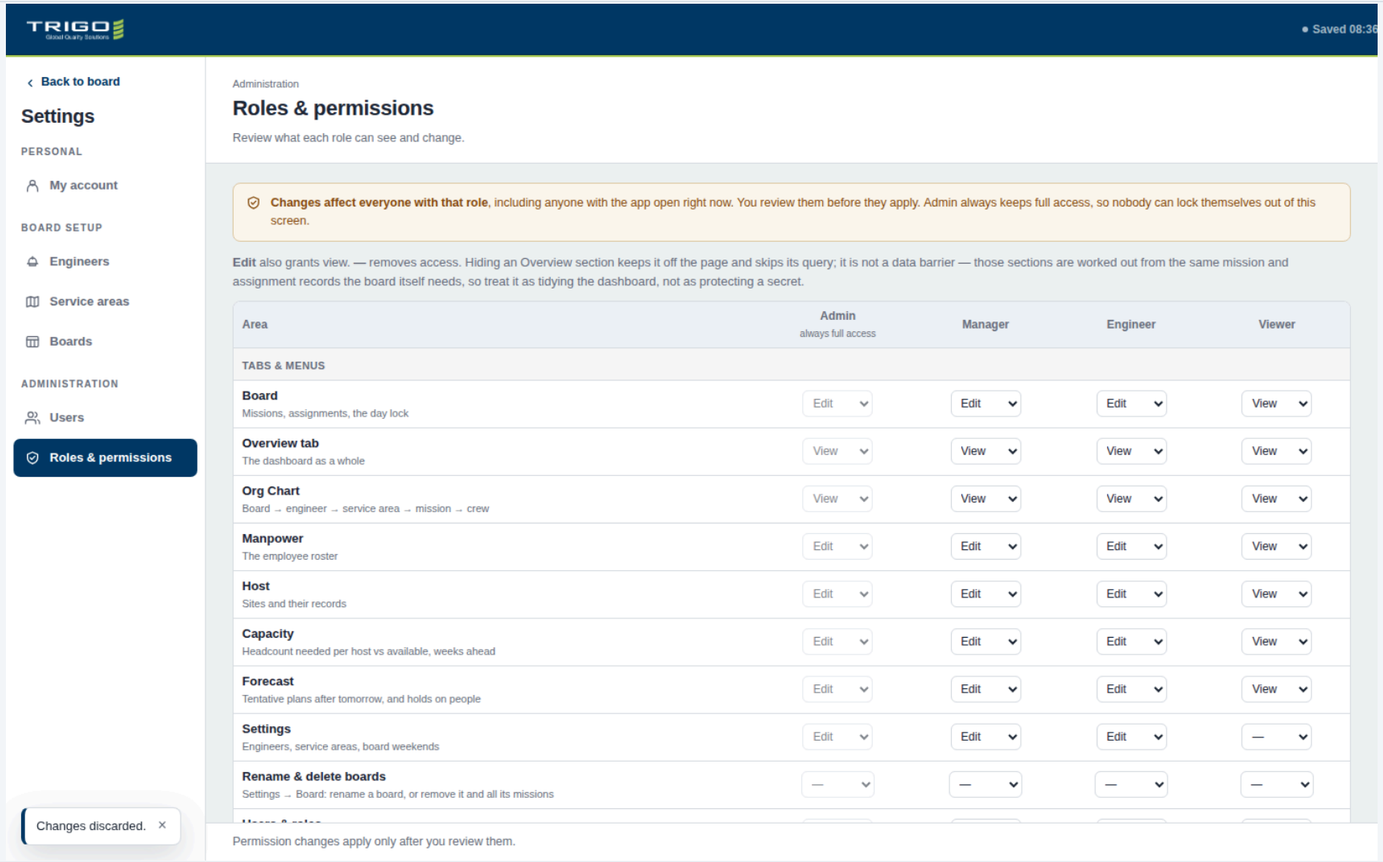

2 Stage View / Edit / Off changes

The Admin column is protected. Use Review changes to see before → after.

3 Inspect and Apply changes

Resolve any cell changed by someone else before applying. Verify the final access for the intended role.

Review and apply role permissions

Role changes reach open app sessions. Review changes is required before writing these staged permissions.
